

Snares, Spies & Killer lies

The devil will sit in the front pew of the church

Evil is bold

The problems are all the same, so are the solutions

Problems; everything opposite of united. Where do we gather?

Americans are the government. We are in charge of ourselves. We either control our government or it will control. like an unchecked bully.

We consent. We are the consent of the governed

Infiltrators are the biggest problem. 99% can look real good, but they are not.

What infiltrators will do:

Distract you

Keep you spinning in circles

Working towards causes that are good, but not necessarily the most important of the times

Everyone in battle will eventually be caught off guard by a traitor

Look at Hollywood? Fakes. Poses. Actors.

Who's in media? Same

But, the answers are the same too. United we stand.

Assembling together to reason

Educating, learning & doing

Grass roots, not who's famous

It's not flashy, expensive, but anything we don't know can seem complicated at 1st

It's totally easy to decide to do the work. {shout out to Roland & HCP}

Decide, commit, and follow thru. Decide that you will get join a new lane that can help our country.

Everybody knows the definition of insanity right?

America is the biggest grift.

There are 3144 counties in America.

Do you know the faithful helpers in your neighborhood? Do you have a contact to alternative media for each county?

We have all uncovered a lot of hard truths and information that is new. We have all been fed a steady stream of lies

For me to continually take in all that information in without remedy is depressing, maddening, and creates unwanted anxiety. It exacerbates the problems.

I do not believe that future generations are going to be impressed & proud of me for knowing so many truths if I do not contribute to problem solving

what am I doing differently to remedy any situations or problems in my area?

The truth about our enemy is self evident. Covid time showed me all I needed to see.

The things that happened during that time should have never happened in America.

If we were properly educated they would have not happened so easily.

What really freaks me out is the idea that I would be caught off guard in a courtroom and not know how to handle myself properly.

If the Bible were written today, this is what it would say....

In those days, at 1st, the people did not know the enemy within. In every place of society there were slaves promoting more slavery.

The air, water, & ground was poisoned & there were many weapons of war against the people.

People did things many different things for money. Some honest, some not.

It became self evident that our own government was not a government at all, but an evil corporation. An elite and evil system that aimed at fully enslaving all of humanity.

Since 1871 the evil corporation grew bigger and stronger because the American people were absent from governing.

Washington DC was only suppose to govern it's 3 buidlings within its 10 mile radius. DC began with consent for 19 contracted services but has grown into the beast that it is today. With the help of mainstream media news "casters", Hollywood actors, sports athletes, and musicians the pretend government was propped up so well that it made it hard for people to realize the fakers weren't even legitimate.

Original services contracted

1. Repair of roads
2. System of Free Schools
3. Justices of the peace
4. Notaries Public
5. Judicial Courts
6. Board of health
7. Prevent domestic animals at large
8. Prevent the sale of unwholesome food
9. Register of wills

10. Recorder of deeds
11. United States attorney
12. United States marshal
- Create, modify, repeal, or amend corporations aggregate for: (13-17)
13. Religious purposes
14. Charitable purposes
15. Educational purposes
16. Industrial purposes
17. Commercial purposes
18. Provide for relief as paupers
19. Elections or appointment of ministerial officers as necessary

the {corporation} US government was the ultimate fall guy. It was easier to blame the pretend government for all the problems. In these days few people took responsibility.

The people were constantly wore down with excessive & oppressive "laws"

The criminal "justice" system was widely accepted as lawful and so was big pharma. Children were medicated/vaccinated/masked up at schools. All age drag shows for kids, and sex changes too. PEOple accepted more than 2 genders, and predators were openly cozeing up with children in every facet of society nearly unopposed. Sexual books were introduced in grammer schools, and demonic charachters read to children in public libraries.

The pretend government was pro death and worked hard to depopulate.

lots of times they just accepted things the way they were but there were warriors that fought back.

People eventually realized that this pretend government was the enemy which meant that it was funded with the people's very own tax money. The money controlled by the enemy went to everybody but Americans. The grift was openly accepted, it seemed there was nothing that could be done?

But some people studied history, law, and governments. States reassembled and slowly began to govern.

~end of Bible of today

Do you ever wonder if we are all doing the same things that have been done with past resets?

How are we all liking the great reset so far?

Don't we all know enough information by now to do something different?

Will we ever get on the same page/same lane?

What is a lane exactly? In my mind "stay in your lane" implies that I are actually moving, but really in actuality I could be parked.

Lanes that I enjoy; Reading, gardening, cooking, crafting, scrolling to search the latest & greatest new

Americans need to get in the same lane and work together.

The lane=Godly, lawful, foundational, productive. County focused. All hands on deck, focus on our counties, our own communities. There are many lanes with community; church, grange buildings, food pantry's, school boards, city council/board of supervisor

Whoever protects the land will be the victor

It has always been this way

So what's a girl to do?

Back to the basics

Ancient principles

Pray specifically for your family, community, military & other 1st responders, latest victims of government abuse-Easy coast/Maui/Americans/children/seniors/care facilities/jails & prisons. Whistleblowers/godly people to overcome evil doers/sell outs/tyranny

That no weapon formed against us would prosper/for protection for our families/military/1st responders & leaders.

Make prayer beads or a list

Show my prayer beads

Everyday get in your knees or stand with your hands to the sky & humbly ask God to deliver us all from evil

Pray specifically for:

Your family

Your community

Your county

Your State

America ~ pray the Our Father

Our World, all countries

Pray for the whistle blowers & quieter warriors

Pray not only for your family, but the family unit & the marriages you know {& don't}

For the children

Our seniors

Veterans

The sick

The deceived.

For Justice, and not vengeance for us

Another good lane to get into would be learning how to grow food. Radishes are fast. Throw some potatoes in the ground. Start by researching/reading/find streamers in your area to learn what grows around you. Find a farmer/bee keeper/ranchers to support. Ask if they offer discounts of any kind for cash or gold/silver-see if you can get a discount when you use honest money

Learn how to sew. There are quilting clubs in some towns.

God, family country

Growing food can help family & community

Gain more knowledge on the common law. Set time aside and commit to this. No one is going to give you the education you need to overthrow them.

Do not go rouge, do not fall for traps

People want your time, attention, money. If a life sucker can get you to simply waste your time they have done their job.

People gaslight to get a rise out of you. Dont give it to them. Realize you are dealing with some paid opposition, ai & bots.

Warnings for prepping:

The 10 virgins

Consider the ant

Be willing to try to learn law. Gods law, laws of our land.

The answers we need are not at the ready. We have to search for them as hidden treasure.

Wisdom is more precious than rubies. Fine gold cannot compare.

Alternative media has the worlds attention

I have a high bar for the new news

And this is what I pray

May they stay true

& unique

May they fight the urge to be just like mainstream

May they focus on what's around them

May they know the stories around them

May they be a dependable voice for their community

May they use their voice for others, and not just themselves

May their community know they can count on them to tell the truth, especially in times of crisis
