Your pest is our problem.

Your local termite and pest control experts.

We founded the Pest Investigators – in 2014.

Since then we have helped hundred's of satisfied customers throughout the South Burnett, providing quality treatments and advice.

The best way to ensure your home is safe from the threat of termites is to contact us so that we can provide you with your personalized professional Termite Management System. Each property we service is never the same, so the best treatment option is provided based on each of customer's unique needs.

Modern technology and traditional service.

We use the Termatrac T3i when conducting an internal termite treatment as well as our rigorous method of tapping, testing and thoroughly checking all accessible timbers for signs of timber pest attack throughout your home or property.

Q: What is the Termatrac?

A: It can read termite activity using radar technology behind suspect timbers without disturbing them - an important aspect when doing a remedial termite treatment. See more of the Termatrac [here](#)

“Excellent communication, very professional and demonstrated a wealth of knowledge about pests.

Completed the job to a very high standard. Would highly recommend them for all your pest needs.”

Q: How can I prevent Termites from getting into my house in the South Burnett?

A: Contact us [here](#)
