

## Language, Literacy & Numeracy Assessment

As part of vocational education and training (VET), all people enrolling in a nationally recognised qualification or unit of competency must undergo a language, literacy and numeracy (LLN) assessment. This assessment provides a guide as to the successful completion of the qualification/unit of competency the student is enrolling. This assessment is in accordance with government legislation and Australasian Institute of Pest Management Training's policy on language, literacy and numeracy.

All our courses and opportunities for RPL are delivered and assessed in English so it is essential that students have adequate skills to cope with the demands of the course in which they enrol.

Should it be identified that a student may require additional support in either language, literacy or numeracy requirements, it may be necessary to undertake a course to ensure successful completion. Your trainer/assessor will be able to provide more information. Information about the outcomes of this assessment will remain confidential in line with our privacy policy.

Directions: Once the student has completed this Language, Literacy and Numeracy (LL&N) assessment, the results and answers provided will be assessed by a trainer. This assessment must be completed on your own.

Personal Details (please supply AIMPT with the following personal details)

Surname: \_\_\_\_\_

Given names: \_\_\_\_\_

Address: \_\_\_\_\_

Home telephone: \_\_\_\_\_

Mobile: \_\_\_\_\_

Email address: \_\_\_\_\_

Date of Birth: \_\_\_\_\_

How well would you rate your ability to speak English?

Very well  Well  Not well  I don't speak English at all

Do you speak a language other than English at home? \_\_\_\_\_

**Question 1:**

In a short response write a 100 word paragraph on a topic of your choosing:

---

---

---

---

---

---

---

---

---

---

**Question 2:**

Ben's study aspirations are outlined below. You are required to read the following and answer the questions:

Ben has completed Year 12 and is now 22 years old. He has a keen interest in the pest control industry as his family live on a property out west. He has found out that he needs to do some units of competency to obtain his license. However, Ben wants to complete the full qualification. Ben is willing to do some study on his own but also wants to know that he has someone to talk to about his studies if he needs help.

How old is Ben now? \_\_\_\_\_

What level of schooling did Ben complete? \_\_\_\_\_

Where does Ben's family live? \_\_\_\_\_

What does Ben want to study? \_\_\_\_\_

**Question 3:**
