

BITCOIN AND THE LIGHTNING NETWORK PROVIDE AN AFFORDABLE FINANCIAL SOLUTION FOR UNBANKED AND UNDERBANKED COMMUNITIES IN THE UNITED STATES AND THROUGHOUT THE WORLD.

For over 50 years Unbanked and Underbanked Communities (UBC'S) in the United States have struggled within the Legacy Banking System. Mainstream banks have proven that they are unable and or unwilling to provide affordable basic accounts, free of hidden charges, and Third-Party Providers often charge usurious fees.

World-wide, especially in underdeveloped nations, UBC's struggle with limited financial service options, and a lack of financial infrastructure and rule of law.

UBC's in the United States have been historically excluded from basic financial freedoms, to hold assets, save, and manage their financial affairs.

Bitcoin and the Lightning network provide for:

- Low-cost financial services
- Financial Inclusion for UBC's
- Property Rights for All
- Self-Custody of Assets
- Elimination of usurious Third-Party Fees

We implore Policymakers and Legislators to educate themselves and consider how Bitcoin and the Lightning Network can help to solve 50 years of intractable financial suffering in UBC's in the United States and around the World.

BTCNUWAY is committed to educating UBC's about options for their Financial Futures.
