## District Grand Master Provides Officer Trainings for Continued Chapter Growth

In partnership with the international fraternity and district grand master Jordan Valenti (Kappa Rho, Boise State University) and area recruitment advisor Hunter Labbie (Sigma Xi, University of West Florida), the current officers of Gamma Theta chapter received training on their current roles to support continued growth. Other chapters from Eastern Washington University, University of Montana, and Gonzaga University participated in the weekend-long summit.

Topics included: officer roles, recruitment & retention, and best practices for focused leadership that will maintain continued success.

Pictured are current Executive Board members Luke Martindale, Grand Scribe; Alec Wiest, Grand Procurator; Mason Petersheim, Grand Master; Casey Bouillon, Grand Master of Ceremonies, and Nick Mautone, Grand Treasurer.

### 3 Pledge During Winter Rush

Even with the success in the fall, the current house membership looked to add "a few good men" with a winter rush. The membership collected recommendations from their classmates and associates as pledges and the chapter's Instagram account [video showing the benefits](#) showed the benefits of being a part of our chapter's legacy.

As of today, the chapter has gained three new pledges who will be supported toward initiation in the early spring. Recruitment efforts will continue through February 7th.

## Become a Mentor to Our Members

Built upon the pillars of fellowship, leadership, scholarship, and service, we would like to match current house membership with an alumnus with a similar major or life experience. We imagine that current members would create a regular schedule of check-in via telephone/video meeting with a focus on supporting the student during the school year and after graduation. If you'd be interested in this partnership for the remainder of the 2021-2022 school year, [please provide the information below](#).

THANK YOU THANK YOU THANK YOU

## Can You Add Some Chairs to Your Cart?

The Gamma Theta Housing Corporation continues to reinvest in the chapter house. Last summer, a soft water system was installed and the drop-ceiling and lighting was replaced in the dining room. Also we have replaced three of our dining room tables. But, as the chapter continues to grow, we will need to replace three more tables and all of our stacking chairs.

We have the desired items [in our Amazon wish list](#) and hope that any of our alumni would consider adding an item to your cart, which would then be shipped directly to the chapter house in your name. Thanks for your consideration.
