## ABOUT

---

PVYNE, born Brandon Javon Pvyne, is the owner Orlando Based company We the Future, as well as a conscious and versatile hip hop performer. His career began with developing his skills in elementary school and eventually throughout college. During this time, he gained a buzz from selling and handing out his first mixtape, "Crave" (2011). Promoting himself as "B. Payne", his buzz would eventually put him on track to get his first radio placement and begin performing at shows.

After graduating college, Pvyne invested all his time, money, and energy in to music; this led to him releasing his first full length project, "Reality Check: Season One" (2015), paying tribute to his late mother, Mama V. During this time frame was the conception and birth of We the Future and a personal rebrand: PVYNE. Over time, PVYNE has become an influence in the Orlando, Florida creative scene through live performances at and event coordination for countless shows across the city. In the year 2022, PVYNE is entering a new chapter in his career. Starting with the January release of single "Wavy", PVYNE, will be releasing a hurricane of music throughout the year including EPs, full length albums, and plenty more singles to come.
