

# RULES...

## - Box Stock -

Kit must be assembled per the instructions without any additional customization or parts not supplied by the kit. Paint color can be different than box art or instructions. Smoothing of seams - removal of flash for fit and finish is acceptable. Instructions must be provided for judges.

## -Custom-

As the word describes, any kit assembled with parts not supplied in the box. After-market items - additions - deletions and kit-bashing allowed.

## -Theme Build-

Build a replica of your favorite movie car. A reference picture is not required but suggested.

All entries will be judged by a panel. Each judge will score the entry on a points based system. Best of show will be chosen from the top scoring entries.

All entries must be registered by noon on Saturday of the show. A Club Member will assist with registration and placing kit at the show tent.

No Cost to Enter. Enter as many kits in any category you want to!

plastic parts, due to the

ing, suitable lacquer primer must

to be used as a base coat under

any paint.

BUILDING TIPS FOR THE ADVANCED MODELER

For the best possible detail, avoid 100% alcohol for cleaning, unless it is needed to clean. It should be applied evenly, in

around the lens (unless they are being used). Use 100% alcohol and wipe away the surface. Each layer

of paint should be applied in a "wet sand" manner. This will help to remove any dust while

the paint is still wet. Do not use a brush to remove any dust while

the paint is still wet. Do not use a brush to remove any dust while
