

September 27, 2024

Dear Siesta Sands Owner,

On Thursday September 26th Hurricane Helene made its way up through the Gulf of Mexico to North Florida. During this time the barrier islands along the Gulf Coast were hit with an unprecedented storm surge. Siesta Key sustained major damage due to this storm surge. Siesta Key is currently closed to all non-residents and non-essential staff. Local and State officials are working to clear the roads and restore potable water and essential utilities. A member of the resort staff will be on site this weekend to begin assessing the damage. Siesta Sands will remain closed until such a time that we can safely welcome our owners and guests back to enjoy their vacations again. We will be posting updates beginning next week on our website at www.SiestaSandsBeachResort.com. We kindly ask that you have patience with us as we diligently navigate our way through this recovery period. We all look forward to welcoming you back to Siesta Sands as soon as possible.

Thank you from the entire Siesta Sands staff!
