

September 27, 2024

Dear Sea Oats Owner,

On Thursday September 26<sup>th</sup> Hurricane Helene made its way up through the Gulf of Mexico to North Florida. During this time the barrier islands along the Gulf Coast were hit with an unprecedented storm surge. Manasota Key sustained major damage due to this storm surge. Manasota key is currently impassable at certain locations. Local and State officials are working to clear the roads and restore essential utilities. A member of the resort staff will be on site this weekend to begin assessing the damage. Sea Oats will remain closed until such a time that we can safely welcome our owners and guests back to enjoy their vacations again. We will be posting updates beginning next week on our website at [www.SeaOatsBeachClub.com](http://www.SeaOatsBeachClub.com). We kindly ask that you have patience with us as we diligently navigate our way through this recovery period. We all look forward to welcoming you back to Sea Oats Beach Club as soon as possible.

Thank you from the entire Sea Oats staff!
