

## **WQMA Track Policies**

*Please note: **QMA badges will be required in the hot chute at all club races (and region races).** Persons without badges will be required to prove membership, or will be asked to stand outside the hot chute with the other spectators.*

No vehicles or trailers are permitted inside the fenced area unless approved by the Board under special circumstances.

No smoking inside the 6' fence.

Due to high risk liability, skateboards, scooters, roller blades, bicycles, motorcycles, or similar recreational vehicles are not allowed on the grounds. This is a rule per our landlord, Evergreen Speedway.

Use of golf carts are limited to licensed drivers, age 16 or older, with their own insurance. Drivers must operate their golf cart or scooter in a safe manner at all times. The ability to use a golf cart or scooter at WQMA may be revoked at any time for unsafe behavior.

All dogs or other pets must remain on a leash and under control of their owner at all times. Owners are required to clean up after their pets.

Curfew for children is set at dark. If children are found outside after this time, they will be instructed to return to their motor home/camper. If the child does not comply, the child will be banned from race participation for that weekend's event. Special consideration will be given when races are held under the lights.

The entire Fairgrounds property, including Evergreen State Speedway will be subject to the QMA Code of Conduct.

Generator curfew is 11:00pm. However, there is no generator curfew for the most southerly (3) three rows of parking. Generators in this area will be allowed to run 24 hours a day, assuming a reasonable decibel level is maintained. The intent for the generator friendly area is to allow power for RV's. The rule is not intended to be an area for race trailers and cars to be worked on all night, nor is it intended to be an all-night social area.

All trailers with fuel cans are required by the Snohomish County Fire Marshall to be in possession of a 2A10BC Fire Extinguisher. These can be purchased at any Lowes or Home Depot (*WQMA also has a few available for sale from the Registration window*).
