

ROUND FOR A REASON

Unlike streamlined kayaks, canoes and paddle board which are notoriously tippy, the Bahama Eco Boat's round design is extremely stable. virtually untippable, and can handle waves from any direction. With Bahama Eco Boats, you get far more usable surface area, allowing you to move freely without the risk of capsizing.

INFLATABLE

Rugged, multi-layer, drop stitch craft inflates quickly and becomes very rigid, ensuring durability and stability on the water.

PACKABLE

Packs into a backpack and fits into even the smallest trunk, making transportation and storage effortless.

POWERED

Includes a 35-pound thrust, 5-speed electric motor, capable of reaching a maximum speed of 5 mph, offering a powerful and smooth ride.

5-MINUTE SETUP

Simply inflate, slide in the motor mount, affix the motor and battery, and attach the seat. You're ready to go in just 5 minutes.

STABLE

Bahama Eco Boat's round design makes it virtually untippable and easy to board and disembark, providing unmatched stability.

SALTWATER RATED

Designed to withstand the harsh conditions of saltwater environments, ensuring durability and longevity for your adventure on the ocean.

**World's most
portable boat!**
