Event Sponsored by the  
Health Care Ministry.

July is here, and with it comes Summer fun and activities. The Health Care Committee stresses the importance of making all planned activities with attention to fun, spiritual growth and safety. Make sure, indoors or outdoors, activities are supervised for young children of all ages. Give even closer supervision for outdoor activities to prevent such activities as kidnapping from yards or streets, shooting, bicycles & scooters accidents and swimming pool accidents. Make sure you know who is responsible for and who is actual providing this supervision.

HAVE A SAFE AND HAPPY SUMMER.

Guess what, it will soon be time to give your attention to the 2019-2020 school year and we want you to be ready. If entering the school system for the first time or returning to continue in school there may be different/or new requirements before you can enroll your child. It is important to identify early what is required and complete all forms a head of deadlines. Check with your school district for current guidelines. Review your child's vaccination records and make sure immunizations are up to date. The current Measles outbreak is resulting in changes being made in some Measles immunization guideline. Check it out now, because it can take time to get immunization appointments. After talking with your school district, talk with your healthcare provider or check on the CDC Immunization web Link (Immunization Schedule <https://www.cdc.gov/vaccines>).
