From the Healthcare Ministry

June is Men's Health Month and we would like to encourage the men of Pinetree Park to take an active role in their overall health. This means physically, mentally and spiritually. These are a few of the facts about men and health:

- 1) Men on average live 5 years less than females
- 2) 1 in 2 men will develop cancer in their lifetime compared to 1 in 3 women
- 3) Men have a higher death rate for most of the leading causes of death, including cancer, heart disease, diabetes and even suicide.
- 4) Men are 4 times more likely to commit suicide than women.
- 5) Women are 100% more likely than men to visit a doctor for yearly routine exams
- 6) Women are more likely than men to seek help for mental health issues.

Men can take control of their health and improve these statistics by making healthy lifestyle choices such as :

- 1) Eating healthy
 - 2) Getting regular exercise
 - 3) Quitting smoking
 - 4) Getting those preventive health screenings
 - 5) Connecting with a faith based church in your community
- ◇ ***Talk to your doctor or spiritual advisor if you are feeling isolated or depressed. If you have thoughts of suicide seek immediate help !***
