**NOTE:** If your pet has been sick and currently vomiting or diarrhea, we will be unable to daycare or board your pet. If your pet has an accident, **there will be a \$25.00 charge per accident.** All pets will have to be contained in a separate yard while the accident is being thoroughly disinfected with hypochlorous acid, which kills canine parvo, hepatitis virus, salmonella, distemper, MRSA, Staphylococcus, E. Coli, bacteria, fungi, and giardia. All playtime comes to a halt when such accident should occur, we will ensure no other pets encounter the substance. As a Veterinary Technician, I am aware that it could be a dietary change or slight flu, but as a precaution, we act swiftly. However, we do not have the equipment to identify a parasite. Owner will be notified after clean-up.
