

Somerset County Historical Society Photocopy and Photo Reproduction Policy

Photocopying and Digital Reproduction Policy

Unless restricted by copyright, photocopies of library materials are available for research at **20¢ per page**. A volunteer will make the copies for you.

Archival materials may be photocopied at the librarian's discretion. With permission, researchers may also use a digital camera or cell phone **without a flash** to copy archival documents. Please note: **photographs and scans of archival photographs are not permitted**.

If you need a digital copy of a photographic image, the Society can create one for a **\$15 fee per image**. A **Right to Publish Form** must be completed, granting one-time use if the image is for anything beyond personal use.

For any published or displayed documents or images from our archival or photograph collections, please credit the **Somerset County Historical Society**. Researchers are responsible for obtaining copyright clearance; the Society cannot provide this.
