FIRST RESPONDER SPECIALIZED DEMENTIA EDUCATION

2 HOURS / OEMS CREDIT AVAILABLE

The number of people with Alzheimer's or other dementias in our communities is growing exponentially. Education is the best opportunity to increase knowledge, awareness, and skills to engage with a person living with dementia.

Police, Fire, and EMTs encounter daily challenges when responding to a scene involving a person with Alzheimer's or other dementias.

TRAINING INCLUDES:

- Learning dementia, signs, symptoms, and reducing risk
- Identifying delusions, hallucinations, sundowning, and wandering
- Acquiring best practices for successful communication
- Comprehending strategies and interventions to de-escalate and redirect

**Town Police & Fire departments may combine the training together.
Multiple trainings may be scheduled to accommodate all shifts.**
