

JOHN LYMAN · 2604 W. DUBLIN DR. SLC, UT · 801-664-6857

STARMY@XMISSION.COM · WWW.JOHNLYMAN.NET

INTRODUCTION & OBJECTIVE

I am a multidisciplinary educator with over 20 years of experience. I strive to be innovative, collaborative, self-motivated and empathetic. Leadership, mentoring, facilitation, design, partnership and community engagement are all in my tool belt. My formidable years were spent in Latin America, providing me with a global perspective, though I have a strong local focus. My objective is to create cutting edge, immersive educational technology experiences and learning tools. I enjoy utilizing my B.S. in Developmental Psychology, and my M.Ed. in Instructional Design to build hybrid environments. While I specialize in adolescents, I am well versed in adult learning, as well as early childhood. As I look toward a future driven by the exponential growth of technology, I see learning environments equipped with VR, AR, and techniques designed with today's learner in mind. I look forward to joining you in a brainstorm.
