Capability Statement

Mission

LOVE Association Incorporated exists to create opportunities for all generations, including youth through older adults to provide opportunities to connect through love, support, fun, and shared experiences that build respect, understanding, and lasting relationships.

Core Competencies

- Intergenerational program design and coordination
- Volunteer recruitment and training support (program-defined)
- Participant intake, scheduling, and service coordination
- Activity planning and event execution for community engagement
- Documentation support, basic reporting, and partnership coordination

Programs and Services

Primary Programs & Services

- Intergenerational Companionship & Social Connection (youth paired with older adults for scheduled visits and ongoing support)
- Errands & Light Household Assistance (non-medical support such as errands, organization, and light help around the home as allowed by program scope)
- Youth-to-Senior Technology Support (basic tech help, device set-up guidance, and digital confidence coaching delivered by trained youth mentors)
- Intergenerational Events & Activities (community events that bring families, youth, adults, and seniors together through positive entertainment and shared activities)
- Community Outreach & Volunteer Engagement (structured opportunities for volunteers of all ages to serve and support neighbors)

Populations Served

Youth • Adults • Seniors • Families • Multigenerational households • Community members experiencing isolation or limited support networks

Partnership & Funding Acceptable

Grants, Cooperative agreements, Community partnerships, Fee-for-service agreements (program-dependent), Subrecipient support, and Event-based outreach initiatives

- Available as a community partner/subrecipient
- Supports agency outreach, engagement, and community-based service delivery

Outcomes

- Reduced social isolation by providing weekly companionship check-ins
- Delivered youth-led tech support sessions to improve senior digital confidence

Differentiators

- Purpose-built model to bridge the generational gap through structured pairing and shared activities
- Youth leadership approach that empowers young people to serve and support older adults (including tech support)
- Focus on respectful relationship-building, fun, and meaningful connection to reduce isolation and strengthen community bonds
- Flexible delivery model for partnerships with agencies, schools, senior centers, housing communities, and community organizations
