\$10,000 MORE

After an accident and repairs, a car loses about 30% of its value.*

Car insurance doesn't cover that loss.

ValueAssureAUTO does.

*The loss occurs because a car's history of an accident (reported through services like CARFAX[®] or AutoCheck[®]) makes a car less desirable to buyers, thus decreasing the car's market value.

ValueAssureAUTO is not insurance. It's diminished value trade-in protection that works alongside your existing car insurance. Coverage terms vary and conditions apply. See the ValueAssureAUTO contract for details.
