ACCOUNTING & FINANCE COURSES

Ms Office:

Microsoft Office is a suite of applications designed to help with productivity and completing common tasks on a computer. You can create and edit documents containing text and images, work with data in spreadsheets and databases, and create presentations and posters.

The overall purpose of MS Office is to simplify and automate various office-related activities like format documents, including reports, letters, resumes, and more, analyze data, create charts, and perform calculations, adding visual elements, and delivering information, manage emails and schedule meetings.

Adv. Excel:

Advanced Excel skills involve utilizing complex functions, formulas, and tools to analyze, manipulate, and present data effectively, going beyond basic spreadsheet usage. These skills are crucial for tasks like data analysis, simulation, graphing, and automation.

Adv. Excel helps to Communicate complex data clearly and effectively using charts and graphs, Solve complex problems and make data-driven decisions.

Tally Prime:

ETallyPrime is a complete business management software for small and medium business. TallyPrime helps you manage accounting, inventory, banking, taxation, banking, payroll and much more to get rid of complexities, and in turn, focus on business growth. TallyPrime seamlessly adapts to different

purchase and sales cycles, whether order-based or direct transactions. Manage sales orders, debit/credit notes, and payments effortlessly.

SAP FICO:

SAP FICO (Finance and Controlling) is a core module within SAP ERP that helps organizations manage their complex financial data, create financial statements, and analyze reports. It's used for both internal controlling and external financial reporting, ensuring accurate accounting practices and compliance.

FICO empowers businesses across multiple industries to use insights gained through data to make complex, critical decisions at scale with precisions and confidence.

SAMPLE MS OFFICE PROJECTS OF OUR STUDENT

(Glimpse of Accounting Project on Ms-Office)

Created by: **Suswin Axcilia S**
 ID: 237/119

Glimpse of Project on MS-Office

Microsoft Office is a suite of applications designed to help with productivity and completing common tasks on a computer. You can create and edit documents containing text and images, work with data in spreadsheets and databases, and create presentations and posters.

The Integration of AI (Artificial Intelligence) in the Microsoft Office suite offers numerous advantages to enhance your productivity and facilitate collaboration. With features like real-time co-creation, document sharing, and cloud synchronization, you can work efficiently with your colleagues wherever you are.

The knowledge of Ms-Office Suite i.e Word, Powerpoint, Excel & Outlook in and out helps to

- Make work faster
- Give good presentation
- Graphical representation
- Send email without errors

Microsoft Word's AutoCorrect feature has evolved with the integration of AI, offering more than just basic spell-checking. AI algorithms now analyze context, grammar, and writing patterns, enabling the system to make intelligent corrections and suggestions.

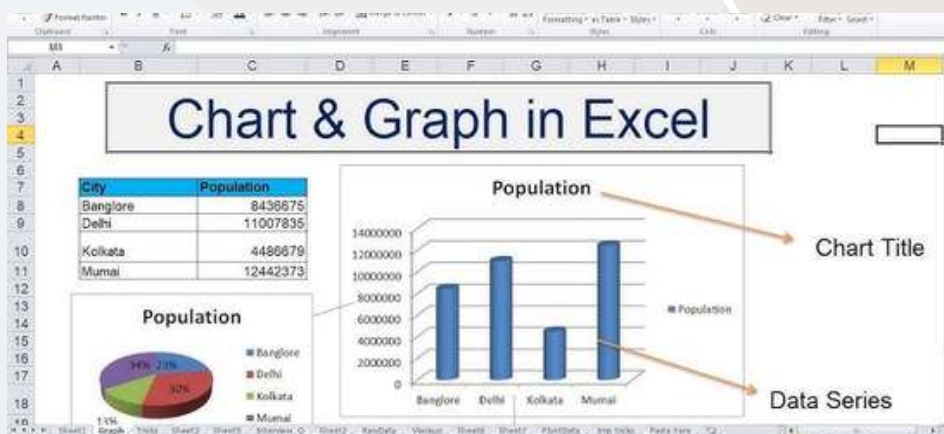

What is the use of AI in Word?

- Completely restructure sentences.
- Enrich your text.
- Describe the same ideas differently.
- Eliminate spelling and grammar mistakes.
- Make your writing clearer and more concise.
- Naturally split sentences.

AI ADVANTAGES IN MS- POWER POINT

- ✓ AI is significant because it successfully tackles a profound set of technical challenges. Increasingly, human capabilities – understanding, reasoning, planning, communication and perception
- ✓ AI drives down the time taken to perform a task. It enables multi-tasking and eases the workload for existing resources. AI enables the execution of hitherto complex tasks without significant cost outlays.
- ✓ Reduction in Human Error. One of the most significant benefits of Artificial Intelligence is that it can significantly reduce errors and increase accuracy and precision.
- ✓ Decision-Making. Zero Risks.

Glimpse of Project Overview of SAP

ASSIGNMENT OF BUSINESS AREA TO CONSOLIDATION BUSINESS AREA

SPRO> SAP Reference IMG> Enterprise structure> Assignment> Financial accounting> Assign business area to consolidation business area.

This assignment ensures that financial data from individual business areas is correctly aggregated and presented at a higher, consolidated level.

Change View "Assign Business Area -> Consolidation Business Area"

Business Area	Description	Cons.bus.area	Description
0001	BENGLORE	FIBA	Banglore
1000	Mechanical engineering	1000	Mechanical en
1500	Consumer Products: Food	1500	Consumer Pro
2000	Plant engineering & construct.	2000	Plant engineer
2700	Mechanical engineering	2700	Mechanical en
3000	Automotive	3000	Automotive
3400	Metal, Wood and Paper		
3500	Aerospace & Defence		

Consolidated business area

SPRO> SAP Reference IMG> Financial accounting> global setting> Document> posting period> define variants for open posting period .

Posting periods define the structure of a fiscal year, breaking it down into distinct periods.

New Entries: Overview of Added Entries

Variant	Name
FI14	posting period variant for FI14

-:Assign variants to company code (OBBP):-

SPRO> SAP Reference IMG> Financial accounting global setting> Document> posting period> Assign variant to company code.

Assigning variants to company codes primarily controls the opening and closing of posting periods.

Change View "Assign Comp.Code -> Posting Period Variants"

IMPORTANT QUESTION & ANSWERS

1. What is the amount of Practice time needed to gain skill in the software?

A Student who is willing to start the career in Software field, He/She needs to Spend atleast 2-3 hours quality time in practicing the software. (Expecting He/She has basic subject knowledge)

2. Is it really necessary to practice every day?

Practice develops 3 major important characteristics
- SPEED - PERFECTION & - ACCURACY

Having the Idea in software is basic, in reality when a CAD /IT student attend the Interview the main focus by Inteviewers is on the level Speed, Accuracy and Perfection.

3. Why does a student who come out from the college (Job less / No Campus Jobs) have tough situation outside? Why there is more competition for software Jobs?

Please understand the Hierarchy model of the Organizations & Colleges in the below link and answer for many questions related to Top level companies, Salary, Competition outside etc.

https://youtu.be/X4cJEw_4wmo

4. If the student is Good in Software only, wether he will get the right Job?

5. If the student is Good in Communication only, wether he will get the right Job?

6. If the student has 90% only in his academics, wether he will get the right Job?

7. Student has good skills but does not have perfect resume, wether he may get right Job?

8. What are the Expectation of the Organizations from the Job Seekers?
