MASTER DIPLOMA IN CIVIL/ARCH./INTERIOR CAD COURSES

AutoCAD 2d/3d: AutoCAD, allows for both 2D and 3D Civil-Arch.-Interior design and drafting. 2D drafting in AutoCAD offers precise control over lines, shapes, dimensions, and annotation.

AutoCAD 3D enables users to create detailed 3D models, analyze data, and visualize designs in a digital environment.

Sketch Up: SketchUp, a 3D modeling software, is widely used for architectural, interior design, engineering, 3D printing, and more. Its ease of use and versatility make it a popular choice for various applications. SketchUp users may upload and download 3D models from 3D Warehouse.

Enscape: Enscape is a popular real-time rendering and virtual reality plugin, primarily used by architects and designers to create instant 3D visualizations, walkthroughs, and panoramas directly

It enables rapid design iteration, client presentations, and improved collaboration by providing instant visual feedback on lighting and materials.

Revit Arch: Revit Architecture is a software that helps architects and other professionals design, document, and manage building projects. It's known for its 3D modeling capabilities, parametric design, and collaborative features.

Revit is also used effectively in coordinating design with structural & MEP discipline. Revit's parametric approach, ensure consistency & accuracy.

3ds Max: 3ds Max is used to model, animate, and render detailed 3D characters, photorealistic designs, and complex scenes for film and TV, games, and design visualisation projects.

Architects and interior designers use 3ds Max to create lifelike representations of buildings and interiors before construction.

V-Ray: V-Ray is a powerful rendering plugin for SketchUp, crafted to help designers, architects, and creators transform their SketchUp models into lifelike visuals. From initial sketches to photorealistic renders V-Ray supports you at every stage of the design process, enabling you to communicate your vision with clarity and impact.
