DIPLOMA DIGITAL MARKETING & GRAPHICS MEDIA COURSES

Digital Marketing:

Digital marketing applications encompass a wide range of strategies and tools used to reach and engage with target audiences through digital channels. These applications include social media marketing, search engine optimization (SEO), content marketing, email marketing, and more.

They allow businesses to build brand awareness, generate leads, drive sales, and foster customer relationships.

Photoshop:

Photoshop is primarily used for photo editing, graphic design, and digital art. It allows users to manipulate, enhance, and create images, including adjusting colors, retouching photos, creating collages, and designing websites. Photoshop is also used for creating illustrations, posters, and other print graphics.

In essence, Photoshop provides a versatile platform for a wide range of creative tasks, making it a staple tool for photographers, designers, and digital artists.

ILLustrator:

**Adobe
Illustrator**

Adobe Illustrator is primarily used for creating vector-based graphics, which are scalable images based on mathematical equations rather than pixels. This makes Illustrator ideal for designing logos, icons, illustrations, typography, and other graphics that need to maintain clarity and sharpness at different sizes. Businesses and individuals use it for branding, marketing materials, product design, and web/UI design.

WHO USES PHOTOSHOP?

- **Photographer:** Photographer just don't take stunning pictures; they create them using the help of Photoshop.
- **Web Designer:** As a web designer, you will be creating logos, navigational bars, backgrounds, headers and additional images to help create a webpage.
- **Graphic designers:** Graphic designers are the people who design fancy intricate images, graphics and even comic book characters
- **Advertiser:** As an advertiser you will be using Photoshop to create logos and branding icons, product packaging, company advertisements and more

POPULAR TOOLS OF PHOTOSHOP?

- **Burn Tool:** It darkens areas and can be used to work on highlight, midtone or shadowed areas.
- **History:** Complete list of tasks performed on an image. Allows to perform, undo or the deletion of a previous step.
- **Gamnut:** The range of colors that a color system can display or print.
- **Crop Tool:** The crop tool is used to shave off unwanted areas at the edge of a digital image.
- **Sharpen:** The sharpen tool increases the sharpness (focus) of an image, by increasing the contrast of neighboring pixels.
- **Smudge:** The Smudge tool spreads color in an image, displacing pixels of corresponding colors.
- **Blur:** The blur tool reduces the sharpness (focus) of an image. It does this by reducing the color contrast of neighboring pixels.

USES OF ILLUSTRATOR

Adobe Illustrator is primarily used for creating vector-based graphics, which are scalable images based on mathematical equations rather than pixels. This makes Illustrator ideal for designing logos, icons, illustrations, typography, and other graphics that need to maintain clarity and sharpness at different sizes. Businesses and individuals use it for branding, marketing materials, product design, and web/UI design.

Logo Design:

Illustrator's vector capabilities make it perfect for creating scalable logos that can be used on everything from business cards to billboards.

Illustrations:

Whether for digital artwork, print media, or even comic books, Illustrator's drawing and coloring tools enable the creation of a wide range of illustrations.

Typography:

Illustrator excels at manipulating text, allowing for custom fonts, logos with text, and text-based design elements.

Infographics and Charts:

Illustrator is used to create visually appealing and informative charts, graphs, and infographics.

Web and UI Design:

Illustrator is employed to design website elements like icons, banners, and user interface mockups.

Product Packaging:

Illustrator's vector graphics and ability to work with different sizes make it suitable for designing product packaging and labels.

BENEFITS OF DIGITAL MARKETING

- Customer Reach Anywhere in the Purchasing Journey.
- Unlimited Customer/Client Targeting Options.
- Cost-Effective and Measurable Results.
- Endless Customization on the Spot.
- More Interaction with Your Customers.
- Greater Brand Credibility.
- Search Engine Optimization (SEO)
- Paid Search.

Digital marketing is an umbrella term for the marketing of products or services using digital technologies, mainly on the Internet, but also including mobile phones, display advertising, and any other digital medium.

Creating and publishing content online, and distributing it to a targeted audience. It is a strategic approach that involves creating and distributing relevant content to attract and retain a target audience.

The goal is to provide value to the audience through content that's educational, entertaining, or informative

IMPORTANT QUESTION & ANSWERS

1. What is the amount of Practice time needed to gain skill in the software?

A Student who is willing to start the career in Software field, He/She needs to Spend atleast 2-3 hours quality time in practicing the software. (Expecting He/She has basic subject knowledge)

2. Is it really necessary to practice every day?

Practice develops 3 major important characteristics
- SPEED - PERFECTION & - ACCURACY

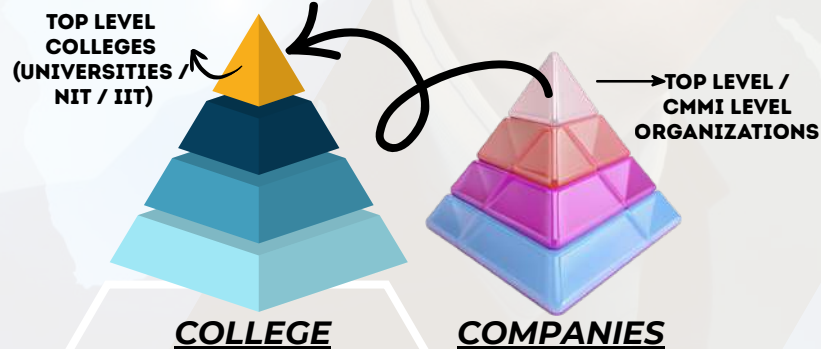

Having the Idea in software is basic, in reality when a CAD /IT student attend the Interview the main focus by Inteviewers is on the level Speed, Accuracy and Perfection.

3. Why does a student who come out from the college (Job less / No Campus Jobs) have tough situation outside? Why there is more competition for software Jobs?

Please understand the Hierarchy model of the Organizations & Colleges in the below link and answer for many questions related to Top level companies, Salary, Competition outside etc.

https://youtu.be/X4cJEw_4wmo

4. If the student is Good in Software only, wether he will get the right Job?

5. If the student is Good in Communication only, wether he will get the right Job?

6. If the student has 90% only in his academics, wether he will get the right Job?

7. Student has good skills but does not have perfect resume, wether he may get right Job?

8. What are the Expectation of the Organizations from the Job Seekers?
