

- 1) Begin at the START tile and answer the question putting your answer underneath just like in the example.
- 2) Next find and shade the adjacent tile which contains that answer at the top of the tile. It might be up, down, left, right or diagonal to your previous tile.
- 3) Answer the question in your newly shaded tile and repeat the process finding the path of correct answers through the maze until you arrive at the FINISH tile.

### Example

$\frac{2090}{82 \times 92}$	$\frac{3743}{16 \times 92}$	$\frac{3844}{64 \times 33}$	S T A R T	$\frac{3747}{30 \times 66}$	$\frac{3774}{71 \times 91}$	$\frac{2109}{28 \times 73}$
