

Rise from the Shadows: 5 SPELLBINDING TRICKS

for Advanced Rise Course Creation

1 USE BUTTON STACKS

Use Button Stack to create different pathways or optional topics.

2 EMBED CUSTOM ANIMATIONS

Use tools like Vyond, H5P or Adobe Animate to create custom animations and then embed them through **Multimedia**.

3 BUILD CUSTOM FEEDBACK

Create scenarios using Knowledge Check blocks. Then offer custom feedback.

4 USE HIDDEN LESSONS

Hide certain lessons by removing them from navigation and provide access via hyperlinks.

5 EMBED ADVANCED QUIZZING

Use tools like Storyline, Captivate, or H5P to create custom assessments, then embed them into your course. They'll still report to your **LMS** and give you more functionality than Rise alone.
