RYAN COOK

ryan@studioworksarchitecture.com

Michael is a registered architect who brings years of experience in residential and hospitality projects. He enjoys the creative and collaborative process of transforming a drawing into a built work.

Lee is the project architect of several of the western mountain region's signature projects. His detail-oriented approach to design provides a uniquely technical outlook to the process.

Brent is a registered architect specializing in custom residential and unique commercial projects. His creative methods have shaped many distinct projects across the west.

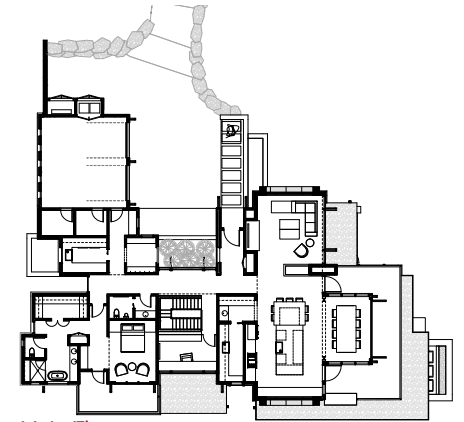

Ryan is a registered architect with a focus in both the residential and commercial sectors. His technological approach facilitates collaboration throughout the design process.
