Re: Short – Term Rentals

A great deal of time and effort has been dedicated to developing an Ordinance regarding Short Term Rentals in the Town of Skirmish. Wisely you have asked for community participation in this difficult task.

My concerns are as follows:

1. Management Standards expressed in the proposal presented by Todd Brunner. At the present time many of these standards exist and are not being enforced. Who shall be the responsible Enforcer?
2. I agree the zoning code be reviewed and the standards not in conflict with any existing regulations and Ordinances.
3. Responsible party one hour drive from the property is troublesome as one hour to address a complaint can be a lifetime for the complainant.
4. Is Skykomish able to manage these properties without having a negative income?
