

Hello, I am Bill Owens. I have half ownership in a house at 115 West Old Cascade Highway. I understand that there are some people in town who want to make me get a permit for renting my house, and have inspections. I resent the intrusion into my life. I believe we already have enough government regulations permits, taxes and so on. How about you get a permit for being here? How about we come over to your house and inspect it? We need less government, not more.

respectfully William E Owens
