Quick Start Guide

Get started with Scale in just 5 minutes!

Installation

1. Open VS Code
2. Go to Extensions (Ctrl+Shift+X)
3. Search for "Scale AI Assistant"
4. Click Install

Setup

1. Open Command Palette (Ctrl+Shift+P)
2. Type "Scale: Settings"
3. Configure your AI API key
4. Choose your AI provider (OpenAI, Anthropic, etc.)

First Steps

1. Open Quick Access: Ctrl+Shift+P → "Scale: Quick Access"
2. Try "Open Chat" for AI assistance
3. Try "Create Project" to start a new project
4. Explore the 28+ professional features
