Germination

7-21 Days

Light

Full Sun

Water

Keep lightly

moist

Grow

Indoors or

outdoors

Edible part

Flower +

leaves

HOW TO GROW

1

Fill a pot
with top
soil

2

Sprinkle
the seed
thinly

3

Gently
press the
seeds into
the soil

4

Water
gently

5

Place in a
sunny
spot

6

Keep the soil
lightly moist

Dandelions can take a little longer to sprout, so don't give up too early!
