CAPABILITIES

We Provide Exceptional...

- Forestry mulching services for land clearing, wildfire fuels reduction, planting preparation, habitat management, and forest regeneration.
- Manual, mechanical, and chemical vegetation management to clear and maintain ROWs and open land, treat invasive species, improve native plant habitat, and control growth in waterways and drainage areas.
- Planting, seeding, and other restoration services to improve degraded landscapes and shorelines.
- Hand cutting and other specialized forestry support efforts to meet a variety of management objectives and prescriptions.

DIFFERENTIATORS

We Excel at...

- **Providing science backed services utilizing industry BMPs.** We employ biologists and trained team members with exceptional field experience who follow current BMPs and seek new advances.
- **Having the tools to get the job done right.** With our custom spray rigs, full equipment list, and many rental contacts, we will always be properly equipped for the job.
- **Adapting and communicating.** With a smaller team size and devoted staff, we can quickly adapt and implement project changes and form direct connections and lines of communication with project representatives
- **Employing certified professionals.** We employ multiple Michigan Natural Shoreline Professionals and our entire field staff are Certified Pesticide Applicators with MDARD.

PAST PERFORMANCE

We have Worked with...

- United States Forest Service, Bureau of Land Management, United States Army Corp. of Engineers, and the US Fish and Wildlife Service
- The Michigan DNR and Arizona DFFM
- Ducks Unlimited, the National Wild Turkey Federation, Ruffed Grouse Society, Pheasants Forever, and many regional CISMAs, non-profits, and other organizations, county governments, and local landowners
