# Automatic Bell Timer

## APB & APNB

### Model APNB :

This system comes with three options in bell ringing pattern :

- Stroke Wise ringing for periods: System will give 01 stroke for period no. 01, 02 stroke for period no. 2 and like wise.
- Long Bell of 10 Seconds - Can be used for assembly, lunch, school off etc.
- Short Bell of 05 seconds - Can be used for short breaks, zero periods etc.

### Model : APB :

This system comes with option of programming each bell with different ringing duration between 01 to 99 seconds. For Example bell is to ring at 07:00 am so user will program bell at 07:00 am with ringing duration between 01 to 99 seconds.

### DIMENSIONS

APB / APNB Unit :  
143mm X 110mm X 50mm
