This system is best suited for effective Two Way Communication across counter/glass partition/ wall. It's a point to point communication system where two amply-speakers are installed in across the counter. These speakers come with built-in microphone and speaker to speak and listen to each other.

Looking at the current Covid-19 pandemic the first need is to maintain social distancing, so this device helps users to conduct two way communications in a safe and protective environment without the fear of getting infected because of your visitor.

The best application areas are for communication between:

- Doctor & Patient
- Shopkeeper and Customer
- Ticket Counters at Railways, Bus Stands, Banks etc.
- Front Office Workers at Factories, Offices, Hotels, Hospitals, retails stores etc.
- Guard & Visitor in Group housing projects, Residential colonies, Factories, warehouses etc.
- Many More...

Salient Features:

- ✓ **Speakers:** Both Speakers are 06 Watt Amply-speakers, so there is no need to connect any external amplifier.
- ✓ **Audible range:** Speakers generate 125db sound at Source. This is pretty loud to even have conversation at noisy place.
- ✓ **Microphone:** Both speakers have built-in microphones which are sensitive enough to capture user voice from even 3 meters of distance.
- ✓ **Provision to connect external microphone:** Attendant Speaker has a 3.5mm jack to connect external microphones are Headband mic, collar mic etc. Customer Speakers are hands free speakers. Customer doesn't have to touch anything, they can stand at a distance and have conversation.
- ✓ **Press to Talk Switch (PTT) :** Attendant speaker has a push button switch to right of speaker. Whenever attendant has to speaker, he/she has to press this PTT switch and release to listen. Speaker also has a port to connect external push button or maintained switch for ease of use.
- ✓ **Maximum Distance between Two Speakers** – 100 Meters.
- ✓ **Cabinet** – Sheet Metal powder coated.
- ✓ **Dimensions:** Attendant Speaker – 210 X 155 X 88 mm Customer Speaker – 256 X 200 X 77 mm
