Pocket Study- All in one Learning & Digital Content Solution

POCKET STUDY
A QUICK LEARNING APP

Integrated Management of online lectures Subject wise, Class wise, student attendance & much more

Conduct Live Classes with scheduled Alarm notifications

Audio, Video, Screenshare, Raise hand, Recording, YouTube stream

Launch **Private Video channel** with live chat, personal notes & much more

Create **Audio lectures** with ref pics & make revision content easily available for students **via Flashcards**

Share Subject, chapter & topic wise files/docs to create entire **digital syllabus**

Conduct **Online Test** & evaluate performance quickly

Online Assignment Submission with due date

Conduct **staff meetings**, parent meetings or any kind of joint **discussions in App** with scheduled reminders

Comparison of Pocket Study v/s other virtual classroom platforms

Zoom/other virtual class platform	Pocket Study
Every time need to share link/ Meeting Id	Classwise students can directly join through App
No concept of lesson planning based session	All the live classes are organised in lesson planning structure
Not possible to access recorded session as a library of video content	Live classes can be automatically recorded & stored on server for future access to concerned students
No concept of attednance	Can get report of students attended all live classes
Not possible to centrally monitor class & subject wise sessions	It's designed for education and having central monitoring features
Not possible to share materials or other resources	Teachers can share relevant topic wise learning resources on the same platform
No concept like sharing audio note flash cards	It's an interesting new way of learning through Audio technology and Flash cards
Anyone with meeting Id/password can join	Only those who are given access of the mobile app through registered mobile number can access
Issues of data security etc	Highly secured platform with no third party data sharing commitment. We charge for our services.
No inbuilt video player integration	YouTube in built player, Vimeo integration etc
No search mechanism to access content	Student can search with keyword/topic to access content
No integration with ERP	Integrated with MyClassCampus ERP

Focus On Your Core Teaching Work & Leave All Your Management Worries On Us!
