More Than Statistics - Our **Relatives**

2nd

leading cause of death for Indigenous men age 10-24 is homicide.

10x

Indigenous women are murdered at rates up to 10x higher than the national average.

2%

of cases involving missing Indigenous people receive national media attention.

4x

Two-Spirit individuals are 4x more likely to experience a violent crime than their non-Indigenous peers.

The Gap: Why the System is **Failing**

JURISDICTIONAL CONFUSION

Overlapping tribal, state, and federal authorities create a "legal maze" where cases are often lost or ignored due to lack of clear responsibility.

DATA INVISIBILITY

A critical lack of centralized, culturally-sensitive data mapping means thousands of Indigenous relatives are missing from national databases.

RESOURCE SCARCITY

Families are frequently left to conduct their own searches with zero professional support, funding, or specialized trauma care.

About Us

United Natives is a multi-dimensional nonprofit dedicated to advancing the health, safety, and visibility of Indian Country. We bridge the gap between Tribal Nations and global brands/experiences to expand Indigenous representation and access.

- **Mental health support**
- **Professional sports partnerships**
- **Youth sports/STEM access**
- **Public health equity**
- **National events**
- **Sustainable partnerships**

OUR DIGITAL RESPONSE TO **MMIR**

United Natives App Launching Soon

- **MMIR Data Tracking** powered by **ESRI GIS** Mapping Technology
- Missing persons flyer uploads with pinned last-known locations
- Sovereign Indigenous data collection designed to keep Native communities in control of their own data and purpose
- Data tracking used to identify MMIR hotspots, trends, demographics, and impacted tribal communities
- Our technology turns "untracked" cases into actionable data for law enforcement, tribal leaders, and policymakers.
- Technology-driven tools focused on protection, visibility, and empowerment for Native communities nationwide

LAUNCHING SOON...UNITED NATIVES APP

1st National Digital Ecosystem connecting our relatives.
