

School Bus Safety

Young Rider Program

This program provides the opportunity for children and parents to learn about the routines for safe school bus travel so that they are prepared for that first school bus ride.

The program includes a video, an explanation of school bus safety rules, a ride on the "big yellow bus" for children and their parents, and the opportunity for parents and children ask questions and to take information home to reinforce the principles of school bus safety. The program is planned as a fun learning experience for the participants.

Buster the School Bus will also come out to meet the children.

The program is designed for children who are beginning school in the fall, but will be interesting to all children under the age of eight.

The comity will be offering free hot dogs, along with a surprise bag for each child and a certificate of completion.

August 19th
4pm to 6pm
É.C. St-Dominique
855 Park Avenue

Sessions are offered in English and French.
