

Frustration Free Internet

A Safer, Faster, Smarter Internet.

Today's home network should be as smart as the devices it connects.

Experience strong WiFi with efficient use of your available bandwidth to give you an optimized Internet experience.

- Get notifications so you know when new devices connect
- Receive alerts when important stuff is happening on your network
- Troubleshoot why your network slows down
- Protect the kids with powerful parental controls
- Connect the router, register your account and you're set
