

IceWave

The IceWave Patch was designed to ease joint pain and inflammation, general body aches, stiffness, soreness, swelling and bruising. IceWave patches use light to stimulate acupuncture points on the body to improve the flow of energy to produce drug-free pain relief within minutes of use.

IceWave provides safe and natural pain relief, and can be used for whole body and local pain.

In clinical studies conducted by LifeWave, 92% of subjects felt a decrease in pain after 15 minutes.
