

# NON-SURGICAL TREATMENTS

This specialized elbow therapy technique allows you to pull muscle fibres apart which ultimately restores the flow of blood, lymph and life force to tendons, ligaments, muscles, joints and organs. Wolfe Non-Surgical does not break up anything nor remove anything. It brings back the breath of life, reversing the issues in all body tissues by restructuring adipose tissue, adhesions, lesions, fibroids, tumors, calcifications and scar tissue from surgery.

## BENEFITS OF NON-SURGICAL TREATMENTS

Non-Surgical Therapy has been shown to be the most effective form of bodywork therapy to reverse the underlying cause of chronic and acute muscular and skeletal problems, accidental & sports injuries, muscle loss (atrophy) and internal scar tissue formation within the body caused by lifestyle choices and surgery. To back this up all our certified Wolfe Non-Surgical therapists offer a money back guarantee on the first treatment that it will outperform all other therapies combined. The most impressive result is instant pain relief, increased range of motion, mobility, flexibility, tone, strength and energy.

Eliminating scar tissue, displaced calcium and crystallization removes the physical blocks that create swelling, pain, stiffness, inflammation, and, yes, abnormal growths. Your life force will flow optimally because your circulation would be where it needs to be. In fact, you can reverse the seemingly irreversible, and treat the so-called untreatable. Eliminating the physical block eliminates the physical problem, and the symptoms that go with it. Always remember the body cannot heal with the same mind that created the disease or ailment.

While this therapy seems to produce miracles, it is in fact just common sense that becomes an everyday occurrence when you master this technique. We're not removing scar tissue, tumors, fibroids, arthritis, endometriosis, or scars from surgery

"We're restoring life to your tissues that we like to call a domino effect of healthy healing."

This includes releasing trapped emotions from your tissues. The INVISIBLE, creates the PHYSICAL. Trapped emotions occur throughout your life, therefore releasing these emotions will set you free on an emotional & physical level
