

# Y-Age Glutathione Patch

Glutathione is the body's master antioxidant, and is involved in many cellular processes of the body. Glutathione is essential for our immune system function and high glutathione levels has been identified as one of the most important indicators of overall health. Glutathione neutralizes free radicals that cause skin damage, and promotes the release of stored toxins and heavy metals.

**The Importance of Glutathione for our health can not be understated!**

Glutathione is essential for life; without it we could not survive. High levels of Glutathione are essential for health and vitality.

The Y-Age Glutathione patch increases the body's glutathione levels in a safe and natural way.
