DOCOFDETOX BIO-HACKING

DOD Advanced Water Fasting “hacks” into your body’s biology unleashing your full potential to heal. You know the saying, “You are what you eat”? That actually applies to humans in a broader sense: everything we put into our bodies — our foods, our thoughts, our physical movement — all affect how we behave and what we become. By bio-hacking yourself, you can actually transform your body so that you feel more energized, more productive overall, and be the best possible version of yourself.

It doesn’t have to involve being a mad scientist and running crazy experiments with your body. Now, some people will tell you that all sorts of gadgets and measurements are necessary to bio-hack yourself, but I prefer the good oldfashionedway, nature’s way: making small loving steps but big lifestyle changes with The Perfect Day Guide, The Brave Heart Way Guide and The Fasting 4 Perfect Health Guide. This, my friend, is the essence of bio-hacking. You stick with the things that work for you and ditch the ones that don’t. After all, when it comes to how your body feels, you’re the expert and so you’re the only one that can make yourself sick or make yourself vibrantly healthy! You were created to create a masterpiece. 3-2-1 you got this BraveHeart!

IMPORTANT

We will be doing a 6-Day Advanced Water Fast every 4 months, so we encourage you to join us because repetition is the key to mastery!

When doing an Advanced Water Fast, the essential products are as follows: Black Diamond, Ionic Calcium Therapy, IGF 25,000 or IGF 300,00, c60 when held under your tongue for 2 minutes and swallowed, Infinite Iodine, Beyond Ormus Minerals, and Son Formula when you crush it before you take it. You will also want to be doing the Ultimate Coffee Enema daily to support your liver and its detoxification process.

Understand, people can even do a 6-Day Water Fast with only water, it is more difficult and is not as effective, however we will support you no matter what. If possible, use Structured Water because it has 1000% more hydration & detoxification than any other water on the cellular level.

Other suggested products will have increased benefits and give you a smoother ride.

No one should ever jump into water fasting without proper supervision and guidance. But when it comes to DOD Advanced Water Fasting, this takes health and healing to the highest level without the risk. We live in a different environment now, we have more toxins, we have more people on prescription medications, food is more toxic now, the air is more polluted and people are sicker today than they have ever been. There are so many more factors to take into consideration now, make sure you consult with a Doc of Detox Certified Health Coach (1-855-900-4544 ext. 5) for a healing that will last a lifetime. DOD Advanced Water Fasting does not turn on the digestive tract or the KREB cycle. But what it does do, is supplies more nutritional factors and energy to the human body than any other full body restoration and immune building protocol.

DOCOFDETOX ADVANCED WATER FASTING FOR SEVERE IMMUNE DYSFUNCTION

If you are dealing with severe inflammatory conditions or terminal diagnosis, many people will do an extended fast, this could be anywhere from 9 days or more. An extended fast can be repeated every 6 weeks to 3 months to eliminate abnormal cells through autophagy, stimulate stem cell production, HGH production to reprogram and balance the entire hormonal and immune system.

DOCOFDETOX ADVANCED WATER FASTING FOR MODERATE IMMUNE DYSFUNCTION

If you are dealing with an autoimmune disease, a chronic inflammatory condition, overweight issues, or an eating disorder then this is the approach for you. You will want to follow the Perfect Day Guide with intermittent fasting on a daily basis each and every day and then do an extended fast quarterly to regenerate the immune system and reset your whole body down to the cellular mitochondria level. Within a year of following this protocol and taking Massive Personal Action, you can completely reprogram your entire immune system and reclaim the health that you deserve.

DOCOFDETOX ADVANCED WATER FASTING FOR HEALTHY PEOPLE

If you consider yourself to be healthy and are looking to optimize your healing potential and improve your biological processes, the best thing for you to do is follow the Perfect Day Guide with intermittent fasting on a daily basis each and every day and then do an extended advanced water fast every 6 weeks to 3 months for 6 to 9 days to reset and fortify your immune system. By repeating the DOD Advanced Water Fast, you will be creating not just the greatest health, but abundant energy that will stand up against this new environment.

STUDIES & STORIES

WATER FASTING IS MIRACULOUS.

BELOW YOU WILL FIND STORIES & RESEARCH ON
THE POWER OF WATER FASTING:

Gandhi would fast for 1 day every week and would do a 10 day fast once a year. When he was assassinated, they did an autopsy on him and found his organs, skin and entire physiology was that of a 40-year-old. Gandhi was 78 when they performed the autopsy.

Arnold Ehret was a natural health educator, researcher, and author of many books on diet, detoxification, fasting, vitality, health, and longevity. He performed a study in the early 1900s on water fasting where he sealed himself in a glass cell in the presence of a notary public and two physicians for 49 days and nights. He consumed nothing but water and when his fast was over, he stated that humans eat 10 times the amount of food that their body can handle and that humans are dying because we are expending too much energy on digesting food. This is why the majority of the world is spoiled rotten.

Holy Crap at

Arnold Ehret said that humans have violated the laws of food more than any other animal on the earth and that we do not need as much food as we are consuming, and this was in the early 1900s before eating became a 24/7 buffet.

70 to 80% of your total daily energy expenditure is spent breaking down food, trying to metabolize the food and trying to utilize the nutrients from food. The energy it takes to digest one meal a day uses up the vital energy we need to think, exercise and to perform our daily activities. The majority of the population is wasting most of their energy on digesting one meal a day because they are not eating the right foods and they're not chewing their food until it is a liquid.

To add to this, most of the population consumes alcohol, soda drinks, artificial sweeteners, refined carbohydrates, and sugars. This is why everyone is sick, tired and unhealthy - because the majority of the population are eating the wrong foods at the wrong time, eating too much food, and they no longer have the energy to break down this fake food so they are becoming Spoiled Rotten.

There was a study done at the University of Chicago by Doctors Carlson and Kunde, they wanted to see what would happen if you put a 40-year-old man who was unhealthy on a 14-day water fast. At the end of the 14-day water fast, the tissues of this unhealthy 40-year-old man were in the same physiological condition as those of a 17-year-old boy.

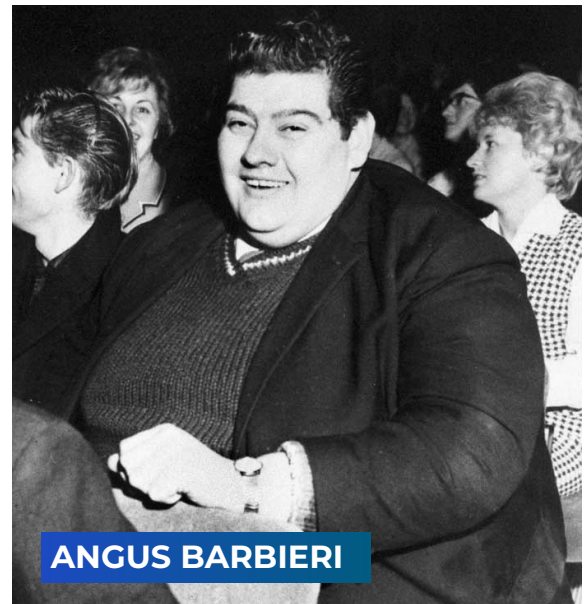

A professor at the University of Chicago took old flatworms that were about to die and he fasted these worms for about two and a half months. The worms started off as long flatworms and by the time the fast was done, they were just tiny little worms. Then he started feeding them again and as they grew back to their normal size, he noticed that from the physiological standpoint, they were just as young as they were when they were born. In his report, he concluded that partial starvation reverses the aging process and that the worms were actually brought from an advanced age back to the beginning of their lives.

For the majority, the definition of starving is missing one meal. For many, missing just one meal will create symptoms such as headaches, nausea, achy muscles and joints; this is a sign of total body toxemia.

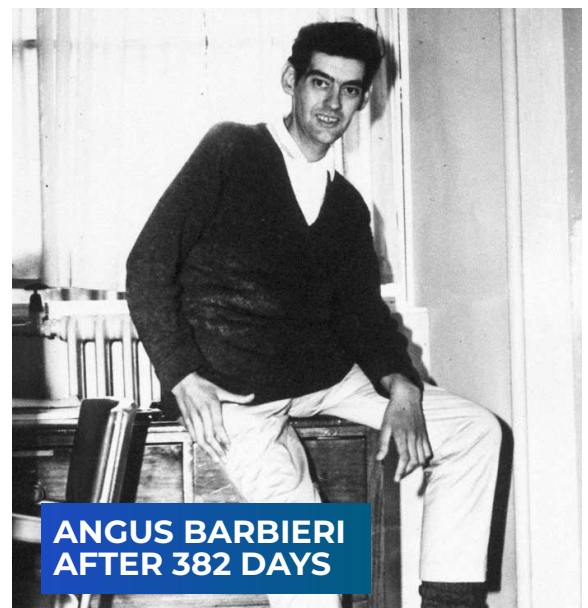

A study at USC was completed by scientists where they proved that water fasting for as little as 72 hours flips the regenerative switch and prompts stem cells and brand new white blood cells to be created. Their conclusion was that 72 hours of water fasting regenerates the entire immune system, even in the elderly. You're never too old to become young with the 6 Day DOD Advanced Water Fast.

In 1965, a 27-year-old man named Angus Barbieri fasted for 382 days under medical supervision. He was tired of being obese, he weighed 456 pounds and after his fast was complete, he lost 276 pounds with no adverse effects.

ANGUS BARBIERI

**ANGUS BARBIERI
AFTER 382 DAYS**

With the 6 Day DOD Advanced Water Fast, people quickly restore their faith and belief in self-healing. We forget how amazing the human body is and that the body will always take care of itself and heal itself when self-love and self-care become the driving force.

The biggest gift of fasting is that it gives people back the power to actually cure the incurable. We must go inward first and foremost because all healing comes from within. The 'Doc of Detox Advanced Water Fasting Guide' along with 'The Perfect Day' guide can and will uncover your true healing potential deep within while transforming your health down to the cellular level.

In today's environment fasting is no longer a passing fad, it needs to become a lifestyle for all those who truly seek vibrant health. We must embrace Doc of Detox Advanced Water Fasting if we wish to keep our physical, mental and spiritual health. Remember the number one rule, if we want to learn something new it takes practice, just know, your perfect day can be achieved but it takes constant repetition until it becomes second nature.

Are you prepared to take massive action to achieve the life most only dream of? Achieving true success in life demands a dress rehearsal each and every day. Over time we will develop muscle memory in every cell of our body, with everything we are willing to repeat; this is how we master life. Your ability, heck your whole life, is run by your prominent beliefs, thoughts, and programs. Either you do your own programming or others will do it for you, only to serve their programs, and understand that fasting will become easier the more you practice it.

Understand, sane eating is corporate America's arch enemy because it puts you back in the driver seat of emotional, physical and financial freedom of their false promises of a better life. The 'Brave Heart Way' guide will show you how to unleash your universal right to heal and stay healed.

To grow emotionally and physically, and to advance our health, we need to lovingly push ourselves, but we do not want to become abusive either - more is not always better. Remember we are going to repeat this Doc of Detox Advanced Water Fasting Support System every 3 months. Listen to your gut and know that we are here to support you, we are just 1 phone call away.

KETONES & WATER FASTING

WHAT HAPPENS WHEN YOU DO A DOCOFDETOX ADVANCED WATER FAST

Intermittent fasting will produce ketones but advanced water fasting is where the gold is. When you abstain from food in a healthy way for an extended period of time, your body will produce ketones as its main source of energy.

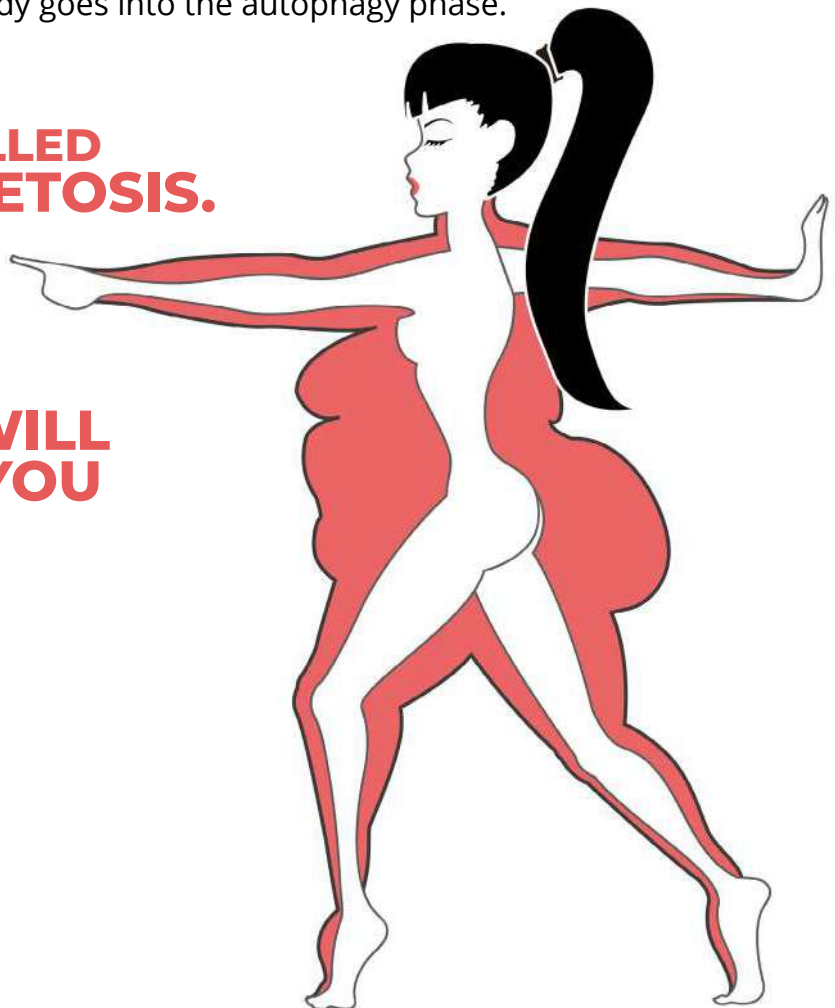

Ketones are water-soluble compounds formed from fatty acids that easily cross into the cellular mitochondria where they are metabolized for energy. Ketones create 14 times more cellular energy than glucose. In addition, the metabolism of ketones produces close to 50% less metabolic waste and oxidative stress.

Around 72 hours is when you start depleting the stored glycogen in your body and you may feel a little shaky. This is when people start to freak out and think they're going to starve to death. Don't freak out, ride it out, because the best is yet to come. You are now shifting into ketosis, otherwise, your body starts shifting into producing ketones to use for fuel.

Nutritional ketosis is where you go from a sugar or glucose metabolism to burning fatty acids as a primary fuel. In this state, the body runs on ketones produced by the liver from both dietary fat and your own body fat when blood sugar levels drop below a certain point. Starting on day 4, your glucose levels go down, you start to feel better, you start to produce more ketones for fuel, and your body goes into the autophagy phase.

NUTRITIONAL KETOSIS.**

REALLY SERVE YOU**

HGH PRODUCTION WITH DOCOFDETOX WATER FASTING

HGH stands for Human Growth Hormone and is an important hormone produced by your pituitary gland. It is responsible for stimulating tissue repair, cellular regeneration, brain function, enzyme production, growth, strength, performance, metabolism and helps with recovery from injury and disease. Optimal levels of HGH are especially important during weight loss, healing, recovery and athletic training.

The human growth hormone is made up of 191 amino acids and its production within our body peaks when we are young and begins to deplete when we are about 35 years old. It affects almost all cells and tissues in the body and is considered to be a master hormone because it controls so many organs and bodily functions.

Around the beginning of the 4th day of the 6 Day Doc of Detox Advanced Water Fast your hormones start to balance out, your body starts producing HGH and testosterone, which helps to build and maintain muscle mass in the lean tissue. People think that they're just going to waste away and they're going to lose all their muscle but it's just the opposite. With advanced water fasting, by day 4 or 5, your growth hormone shoots up like when you were a kid.

With the DOD Advanced Water Fasting, you will not lose muscle mass because you are using high energy nutritional formulas that never activate your digestive system. If your digestive system is active during a fast, like during a juice fast, then you can lose muscle mass or have some atrophy. With the 6 Day Doc of Detox Advanced Water Fast, you will become a lean, keen muscle machine.

WITH DOD ADVANCED WATER FASTING

DOC OF DETOX ADVANCED WATER FASTING

The most powerful way to maximize ketone production, HGH production, autophagy and the stimulation of stem cells is by doing a DOD advanced water fast every 3 months, let's just do what we can, and see if we can make it 6 days or more, and if you can't, understand that you are still amazing because to show up is everything.

The first 3 days of a water fast are the hardest because your body hasn't gone into ketosis yet. Around day 3 is when you start depleting your stored glycogen in your body and you might feel a little shaky. This is why the DOD Advanced Water Fast is so revolutionary when it comes to health and healing. IGF-1 is produced by the body in large amounts until the age of 30, when we introduce IGF-1 25,000 or 300,000 to the DOD Advanced Water Fast, we harness and turn on pure energy without turning on the digestive tract or KREB Cycle which takes stem cell making, autophagy and energy to the highest level.

Creating stability and strength does not end there. We utilize one more nutraceutical called SON Formula. SON Formula is 99% percent absorbable which means it does not turn on your digestive tract, which means it turns on the power to heal and build muscle.

If you decide not to utilize these powerful nutraceuticals, don't freak out, ride it out, because the best is yet to come. You are now shifting into ketosis otherwise, your body makes the shift to produce ketones for your fuel.

When you start producing ketones, your ketones will go to where your fat tissue is because your fat is a good source of fuel and energy so instead of using glycogen you start to use ketones, which is a better source of energy.

On day 4 your glucose levels go down, you start to feel better as your body enters into ketosis and your fast will get easier. Your hunger and cravings will no longer be present, and if they are, it is an emotional craving triggering the desire to eat.

We all have at one time used food to suppress emotions that we are unable to process and the majority of the population still continues to do this. Discover the authentic you. Go to The BraveHeartNation Library and read the 'Brave Heart Way' and watch the '12 self-loving steps' video. Never forget that your thoughts create things, master your emotions or your emotions will master you.

On day 4 or 5, your body starts to gain maximum benefits from the advanced water fast, supercharging the ketones, HGH, stem cell production and autophagy.

This is extremely beneficial for people with autoimmune disease, inflammation, chronic illness, overweight issues, eating disorders or anyone who truly wishes to become the master of their health.

You can expect to have bad breath during your Advanced Water Fast. Your tongue will become white and you may have the taste of acetone in your mouth, because acetone is a byproduct of fatty acid metabolism, so as we start to burn fat, our breath worsens and our tongue becomes coated. When the tongue returns back to its natural pink color, it is time to break the fast. It is recommended to use a copper tongue scraper to remove the film from your tongue.

Another symptom that comes with extended advanced water fasting is that your urine may actually be darker in color than you would expect with all the water you're drinking. Your urine may be darker and cloudy because of the elimination of excess toxins and because ketones are increasing in the urine, reaching its maximum on day 7 to day 9. After this, your urine should become lighter and more clear. Understand this, if this is your first time fasting, lovingly get out of your comfort zone.

We have had many people go through the DOD Advanced Water Fast for 40 days and longer who have done muscle mass and muscle density tests before fasting and after their fast. They lost less than a quarter of their muscle mass in that amount of time. People think they're going to waste away and lose all their muscle but it's just the opposite.

With water fasting, your hormones are the first thing after 4 days that start balancing and your growth hormone shoots up like when you were a kid by day 4 or 5. Your body starts this rebuilding phase by restoring new lean muscle, this is called biological recycling.

With water fasting, you will not lose muscle mass because you are not activating your digestive system. If your digestive system is active during a fast, like during a juice fast, then you can lose muscle mass or have some atrophy.

These changes are extremely beneficial for people with autoimmune disease, cancer, inflammation, chronic illness, overweight issues, eating disorders or anyone who truly wishes to master their health.

Fasting is not only for your physical body or to induce stem cell production or to induce autophagy. Fasting should always be done in a quiet, restful place with a peaceful state of mind so you can go within to learn about yourself, so you can become one with yourself. This is a time to empty your schedule, not fill it. This is a time to respect, honor and love yourself because yes, love is the answer but self-love is the cure for the incurable.

Understand that if you take the load off the physical body, you will finally feed the spiritual body, or energy body, or energy grid, call it whatever you want but until you really feed that part of you, you can't heal the physical.

AUTOPHAGY THROUGH DOCOFDETOX ADVANCED WATER FASTING

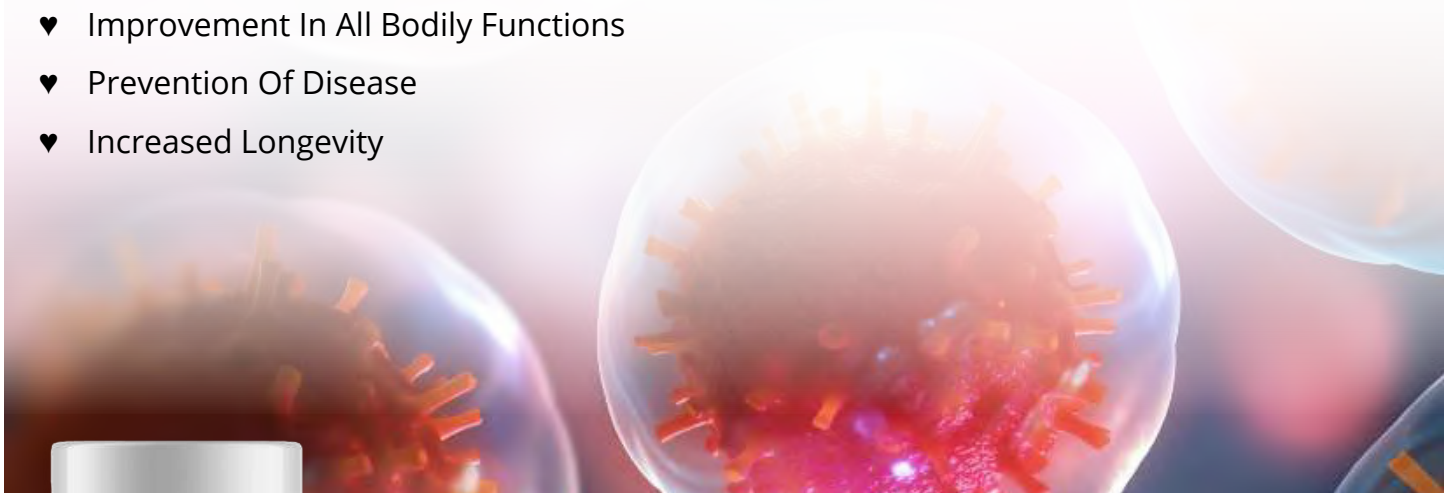

Autophagy also called, 'self-eating', is a detox process your body experiences in order to clean and clear out diseased and damaged cells while regenerating new healthy cells. During your Doc of Detox Advanced Water Fast, the protein p62 is activated to induce autophagy, this is key to living a vibrantly healthy life.

Autophagy is when the body goes into a state of healthy decomposition, this is where it begins to digest and eliminate any tissues or cells that are diseased, damaged, inflamed, aging or already dead. Our body was designed to naturally eliminate these tissues and cells but due to today's toxic burden, there has been a communication breakdown at the cellular level.

Just imagine, if you didn't eat anything for days your body wouldn't have to focus on digestion. All that energy can now be transformed into millions of microscopic Pac Men inside your body eliminating all of the abnormal, damaged, dead cells. This new found energy will eliminate anything that is impure, any type of inferior material, toxic accumulations, tumors, abscesses, and those abnormal unwanted fat deposits. Your body now has the ability to actually start rejuvenating, regenerating and producing healthy stem cells for whole body healing.

THE BENEFITS OF AUTOPHAGY INCLUDE:

- ♥ Reduced Inflammation
- ♥ Improvement In All Bodily Functions
- ♥ Prevention Of Disease
- ♥ Increased Longevity

in situations of abnormal growths and severe circulatory situations, fibroclear systemic enzymes can be added to the DOD Advanced Water Fast protocol to help support and increase autophagy.

STEM CELL PRODUCTION THROUGH DOCOFDETOX ADVANCED WATER FASTING

Stem cells are unique as they can develop into many different types of cells depending on what part of the body they become. Stem cells serve as a vital repair system for your body. There are two main types of stem cells: embryonic stem cells and adult stem cells. Our Advanced Water Fast causes your stem cells to wake up from their naturally dormant state to their full regenerating potential. Advanced Water Fasting quickly eliminates old damaged cells allowing new cells to be born, this process rebuilds and restores your immune system to its full potential.

One of the main purposes of fasting is to teach you how to return to a peaceful, restful state. Fasting allows you access to go within to learn about yourself; how to become one with yourself.

Understand that when you take the focus off the physical body, you will finally feed the spiritual body, or energy body, or etheric body, call it whatever you want but I assure you of one thing, it exists and until you really feed that part of you, you will never truly heal the physical.

You can only grow consciously and you can't grow consciously unless you're willing to grow spiritually, end of story. This is why people can spend 30, 40 or even 50 thousand dollars going to a cancer clinic and only buy time. It's not time you need, it's a new reality and you cannot have a new reality without changing parts of your personality. Your thoughts make and shape you.

It's time to unleash the authentic you with the 6 Day Doc of Detox Advanced Water Fasting Protocol.

With Advanced Water Fasting it's extremely important to be in a calm state of mind, to incorporate meditation, prayer and the Lion Heart Breathing into your program. You should be resting, sungazing in the morning, going outside and grounding yourself and being in nature as much as possible. Everybody that I've talked to that has done short or long term fasting have all come up with the same conclusion: That meditation, prayer and staying connected to your breath helps to conserve and create energy for autophagy, stem cell production, immune building, along with the cleaning and repairing of body tissues, joints, and organs.

No one should ever jump into water fasting without proper supervision and guidance. We live in a different environment now, we have more toxins, we have more people on prescription drugs, fear is a major part of our diet, food is more toxic now, the air is more polluted, there are so many more factors to take into consideration now. Before you start on this life-changing journey make sure you consult with a Doc of Detox Master Consultant at 1-855-900-4544 ext. 3 to guarantee your success; you're worth it.

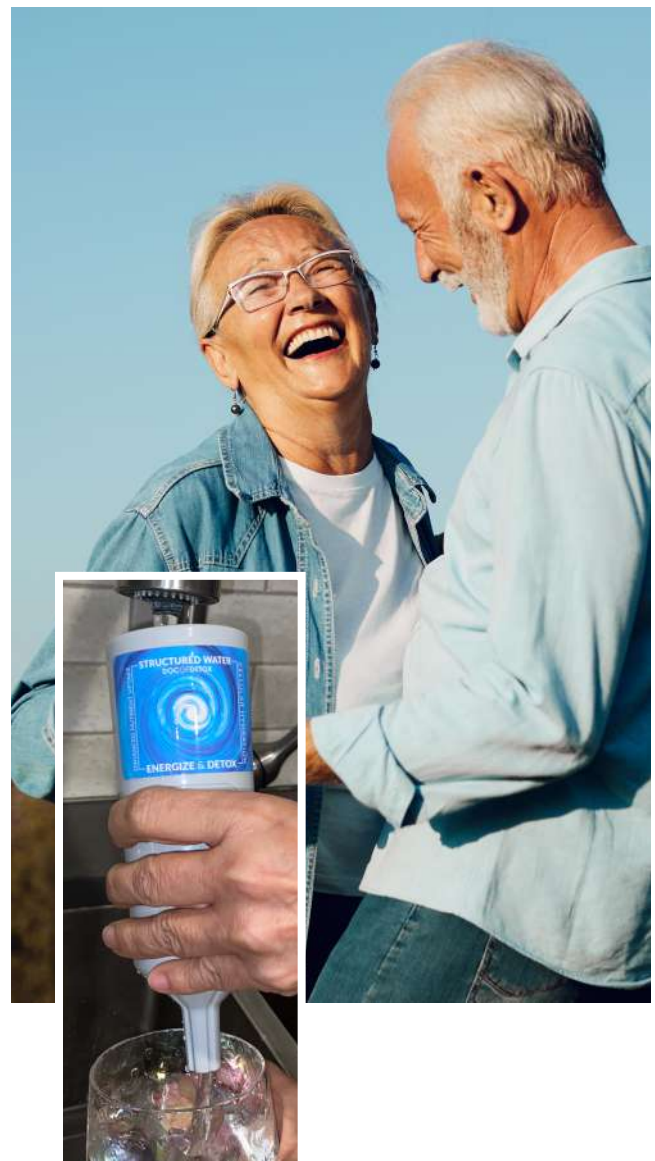

HOW TO DO A DOCOFDETOX ADVANCED WATER FAST

Structured water is the rocket fuel for an DOD Advanced fast if you wish to unleash your greatest healing potential. The amount of structured water to drink on a daily basis is as follows, for males, it is 4 to 5 quarts and females it is 3 to 4 quarts. The amount of structured water will depend on the age, weight and condition a person is in physically and emotionally. The more you weigh and the more chronic your condition, the more structured water you will need to reduce the inflammation and the accumulation of toxic waste.

Upon arising drink 16 oz of warm to hot structured water or 16 oz of structured water with SAC Ionic Calcium to eliminate morning hunger and restore proper pH. SAC Ionic Calcium structured water must be consumed on its own, on an empty stomach 30 minutes after and 30 minutes before anything else. SAC Ionic Calcium can be taken to enhance the water fast because it is not a supplement, it is a high-frequency therapy that will only enhance your water fasting process and supercharge your healing without turning on digestion. SAC ionic Calcium can be consumed every four hours. For maximum benefit, it can be taken up to 5 times a day.

Himalayan salt should be taken for the first 5 days and longer if needed. 1 teaspoon mixed with 10 to 16 oz of structured water to move the bowels and help keep electrolytes balanced. If more assistance with eliminating is required take the Doc of De-tox Daily Cleansing Tea or do the Ultimate Coffee Enema to help with the relief you seek.

Bowel movements during water fasting are essential and should be easy and soft, but not watery. Your stool should be formed but may fall apart when they enter into the toilet water. Understand, the frequency and the quality of your urination and bowel movements are a computer printout of your health. Did you ever notice that the sicker one gets, the more trouble they have with eliminating. Understand, the greatest relationship you will have is with your body, how's that going, or are you even going?

11 STEPS

TO SUPPORT YOUR DOCOFDETOX

ADVANCED WATER FASTING JOURNEY

1. CREATE A BRAVEHEART DAY

High levels of stress is the biggest downfall in fasting. Go to The Library at docofdetoxlibrary.com and read The Brave Heart Way and watch the 12 Loving Steps videos. If your goal is to totally master your mind to master your life, then join the world's most powerful online emotional training at braveheartfree.com.

2. AVOID NEGATIVITY

Don't look for confirmation from people who have never fasted or people who don't understand it because you will not like their answer. Go to YouTube and do your homework, listen to people's testimonials on their fasting journey, watch educational videos on fasting, and read life-enhancing books. If you need confirmation always add investigation. If you haven't yet received your copy of Healthy to 100, it is free with a purchase on the Doc of Detox store.

3. DRINK PLENTY OF STRUCTURED WATER

You want to have easy access to structured water, it is best to have your own structured water unit in your home. Remember to always drink out of glass, never plastic, even if it says it's PBA-free because there are still harmful toxins in BPA-free plastic.

4. ELECTROLYTES

You may need electrolyte support along the way, using a pinch of pink Himalayan salt is beneficial but our Beyond Ormus Minerals are a complete electrolyte supplement. If you feel tired or dizzy during the fast, take a pinch of pink Himalayan salt and put it on your tongue and drink 4 to 8 oz of structured water. Beyond Ormus Minerals are an essential part of the advanced water fasting protocol when it comes to electrolytes.

5. ADVANCED WATER FAST THERAPIES

Do your Clapping, Belly Button Therapy, Dry Skin Brushing, Coco Salt Glow, Epsom Salt Scrub, Bioptron Light, Avacen, Tesla Lightwear for protection against bluelight poisoning and practicing your Lion Heart Breathing Techniques found in the Perfect Day Guide. Make sure you don't over-exert yourself with any of the support therapies, love yourself with gentle baby steps daily.

6. CLEAN HOUSE PHYSICALLY & EMOTIONALLY

The first step to remember is to wipe your mind off at the door and only bring love home. The second step is to remove all junk foods and addictive foods from your house if possible. The third step is to remove all chemical cleaning products from your home. The fourth step is to make your home blue light/5G friendly. See the 5G/Blue Light Guide and video in The Library for more information. If you live with others have a meeting with everyone in your home because team work makes the dream work.

11 STEPS

TO SUPPORT YOUR DOCOFDETOX

ADVANCED WATER FASTING JOURNEY

7. DRINK STRATEGICALLY

While fasting, it is normal to feel hungry during your body's normal feeding times. The hunger hormone ghrelin is secreted when the stomach is empty and when we are used to eating. Drink 10 to 16 oz of structured water with Fulvic Acid Concentrate and a drop or two of Super Cinnamon, Lemon Lift or Orange Burst essential oil if needed. This will help to suppress and reset ghrelin levels, increase energy and eliminate hunger.

8. SUPER BOOST YOUR ENERGY

If you are feeling low energy, depressed, or deprived on your water fast bring yourself back in an instant with IGF-1 25,000 or IGF-1 300,000. Turn on your energy (mitochondria) without turning on your digestive tract. IGF-1 bypasses the Krebs cycle, which means it only turns on your energy without turning on digestion. Consider adding Lemon Lift, Super Cinnamon or Orange Burst Essential Oil to your structured water for an additional boost.

9. SUN GAZE EVERY DAY

Remember to sun gaze every morning for 20 minutes to an hour with as little clothing on as possible, you want to saturate your entire body with the morning sunlight to charge up your body with full spectrum light and to get your Vitamin D. It is important that you do not burn your skin. Getting your daily dose of sunlight will help International Training Institute of Health | 61 stimulate Vitamin D production and enhance your fat burning physiology to get into ketosis faster. Sunlight has powerful biophotons that help to reduce stress hormones and stimulate the production of serotonin to help improve your fasting experience. If you live somewhere where you don't get enough sunlight, it is beneficial to get a Vitamin-D light and stand in front of it 4 minutes a day.

10. GO FOR A NATURE WALK

Align yourself with nature by going outside and taking a stroll to help realign and balance your energy. If weather permits, get your bare feet in the sand, grass or dirt and recharge your body with the earth's magnetism; get connected, get grounded.

11. REDUCE BLUELIGHT & EMFS

Take a look at CellGuard for your phone and Tesla LightWear to protect your eyes from blue light. Be sure to watch the Blue Light 5G Toxicity show on docofdetoxshow.com or YouTube. Go to The Library to read the Blue Light 5G Toxicity Guide and What The Cell Is Going On guide.

12. PUT A SLIGHT SMILE ON

Wherever you go, leave happiness and joy in case we try to find you.

BLOOD TESTS & FALSE READINGS

When it comes to blood tests during your fast and a few weeks after your fast, unless you are feeling unwell you may want to wait because there is a very good chance you will have false readings. When your body is in the autophagy phase it is breaking down and chewing up all your body's diseased and damaged cells, so during this time, your blood work will be all over the place.

Just like a mud puddle, the water looks clear until you stir it up. So don't be surprised when you go to the doctor and he thinks you're a 911 crisis so he rushes you to emergency because he was not trained on how the body cleanses or heals. A Medical doctor has not been trained to understand diet, nutrition or detoxification, just as I have not been trained in surgery or the dispensing of drugs, how could he ever wrap his head around water fasting?

DOCOFDETOX ADVANCED WATER FAST PRODUCT DESCRIPTIONS & HOW TO USE THEM

***IMPORTANT**

Dosages are designed for those who are 150lbs. Those who are 50lbs take only a third of the recommended dose. Those who are 300lbs should double the recommended dose. Got questions? We got answers! Call 1-855-900-4544 ext. 0

STRUCTURED WATER UNIT

3/4oz per pound minimum. Women 3 to 4 liters/quarts per day. Men 4 to 5 liters/quarts per day. Consume Structured Water throughout the day. It may be hard to wrap your head around this but you can structure any type of water - even tap water. Also, use your structure unit to structure all other liquids for increased uptake of nutrients and detoxification all the way to the cellular levels.

INTERNAL ESSENTIAL OILS:

LEMON LIFT, ORANGE BURST, SUPER CINNAMON

Add 1 to 2 drops in every liter/quart of structured water. these 3 essential oils will turn off the hunger trigger, along with disinfecting and increasing energy levels. Super cinnamon is amazing for diabetics, balancing blood sugar levels and eliminating sugar cravings during and after the DOD Advanced Water Fast.

ESSENTIAL OILS: FRANKINCENSE, FRANKINZEN

Can be used on any part of the body externally, or 1 drop under the tongue once a day or once every hour if you have a life-threatening condition. After you perform Belly Button Therapy add 1 to 2 drops of Frankinzen or Frankincense as well as 1 to 2 drops of Hemp C60 or MCT C60 for ultimate circulation restoration.

DAILY CLEANSING TEA

Thoroughly read brewing instructions before using the Daily Cleansing Tea. Drink 4oz in the morning and 4oz in the evening for the first 3 days before increasing the dose to 8oz twice per day or the amount needed to have 2-3 bowel movements slightly mushy for the first 10 days to show that we are cleaning the inside lining of the large intestine. Read the instructions thoroughly. If your bowels are moving easily without the Daily Cleansing Tea during the DOD Advanced Water Fast, then do not use the Daily Cleansing Tea, but if they are not moving properly then use the amount needed. If you create a backup you will want to come off the DOD Advanced Water Fast.

BLACK DIAMOND CRYSTALS

Mix 1 packet or 1/8th of a tsp of Black Diamond Crystals in every quart of structured water and drink, minimum once a day. Do not mix this with Calcium Ion Therapy. If you are suffering hormonal imbalance, black Diamond Crystals will resolve these symptoms, due to the Nano-Humuc inside these Crystals. Those that are dealing with symptoms of the 'V' - use up to 12 servings per day to help these symptoms go away.

FULVIC ACID CONCENTRATE

Fulvic Acid Liquid Concentrate is a great support for those who are high in heavy metals, worms, parasites, fungus and acidic pH. Shake gently and take 1 teaspoon in 16oz/500ml of water, minimum 3 times per day. It can be taken in water throughout the day. Take as much as desired - just listen to your body. For best absorption, take on an empty stomach. It may be taken with the Daily Cleansing Tea.

DOCOFDETOX ADVANCED WATER FAST PRODUCT DESCRIPTIONS & HOW TO USE THEM

MAGINFUSION MAGNESIUM

WATER INTAKE

Consume Structured Water throughout the day. Do not allow thirst to build up – always avoid dehydration. Rather than a large amount at one time, it is better to take in a smaller but continual flow of water throughout the day for proper assimilation and detoxification. Most people do not drink enough water each day. When drinking Structured Water, it is easier to drink more water.

Particularly at the beginning, it is very helpful to prepare and lay out the total daily amount of water so it's easily visible and a reminder to drink throughout the day. In time, you will reprogram your brain to drink enough water without thinking.

The average woman should drink 3-4 quarts/litres of Structured Water per day. The average man should drink 4-5 quarts/litres of Structured Water per day. Consume half of your water intake by 11AM and the remaining amount by 4PM.

DRINKING WATER:

The Portable Unit is the best and easiest way to get Structured Water anywhere in the world! Simply, hold the portable unit under any faucet with a glass underneath the spout, turn on the tap and fill the glass with Structured Water.

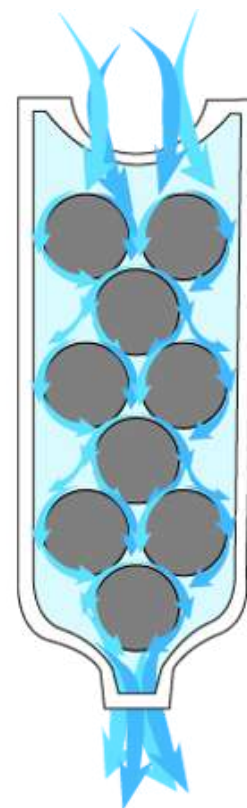

SHOWER WATER:

A person showering in regular tap water will absorb more chlorine and fluoride toxins into their body in one shower than drinking 20 glasses of chlorinated and fluoridated water! 72% of the chemicals in the water are absorbed through the skin and through the lungs by [unknowingly] inhaling chlorine gas. This is why it is so crucial to shower in Structured Water.

If you wish to have beautiful skin and excellent health, use a structured shower unit; when showering in Structured Water, your body will absorb 4 cups of high frequency and super-hydrating water at the cellular level.

STRUCTURED BREATHING:

Optimal health requires us to also raise the healing frequency of the air we breathe. Using a portable Structured Water unit for breathing will regulate the autonomic nervous system within just a few breaths! Simply breathe through the small end, and focus on your Lion Heart breaths.

"Everything Is Frequency, Protect Yours."

— Dr. Darrell Wolfe —

BLACK DIAMOND CRYSTALS

250mg - HUMIC
100mg - FULVIC

BLACK DIAMOND CRYSTALS

The Doc of Detox Humic/Fulvic line is the only product line that does not use chemicals in their processing. Our Non-Toxic Patented Process Gives You The Finest, Most Powerful Daily Detoxification And Supplementation That True Health To Offer.

Black Diamond Crystals is the most effective healing and detoxifying Humic/Fulvic formulas in the world today. Combining the power of Humic Acid and Fulvic Acid in a nano form allows it to cross the blood-brain barrier and enter into all your cells for maximum healing.

Humic Acid is a natural ionic molecule extracted from ancient organic soil deposits. It is a key element for our nutrient starved world, containing 70+ bioavailable nutrients. **Black Diamond Crystals contains highly concentrated minerals and healing substances** composed of long chain molecules which are high in molecular weight, dark brown to black in color and soluble in an alkaline solution. Binding to both positive and negative charged ions, Black Diamond Crystals is a powerful free radical scavenger and natural antioxidant. Humic acid places a prophylactic coating, a thin protective film, on microbe receptor sites inhibiting attachment to host cells, preventing viral, bacterial, and fungal infection. The function of humic acid is to balance and energize all cell life and biological properties. Humic acid is the key for balancing hormones, including regulating women's menstrual cycles.

Fulvic Acid is the most powerful natural electrolyte. It restores electrical balance to damaged cells, neutralizes toxins and can eliminate food poisoning within minutes. When it encounters free radicals with unpaired positive or negative electrons, fulvic acid supplies an equal and opposite charge to neutralize the free radical, acting as a broad spectrum anti-microbial and fungicide. Fulvic acid carries up to 60 to 70 micro minerals, nutrients and elements directly into the cells and chelates monovalent and divalent elements which it comes in contact with. Fulvic acid has the power to form stable water soluble complex structures with monovalent, divalent, trivalent, and polyvalent metal ions. It can aid in the movement of metal ions that are normally difficult to mobilize or transport. Fulvic acid is an excellent natural chelator and positive ion exchanger and is vitally important for the nutrition of cells.

Black Diamond Crystals support optimal microbial balance within the gut to help heal gut issues such as irritable bowel syndrome, leaky gut, Crohn's disease, ulcerative colitis, diverticulitis and gallbladder issues.

Ingredients:

Each packet of Black Diamond Crystals contains 250mg Humic Acid Powder and 100mg Fulvic Acid Powder.

All DCOFDETOX Humic and Fulvic products are derived from an exclusive humic deposit which is remarkably high in humic and fulvic acids while low in undesirable ash and heavy metals common to other feedstocks, located in Drumheller, Canada. Along with patented isolation technology, this pure premium material produces products of superior quality.

An innovative production process is used that leverages physical principles to extract the many fractions of humic substances, including humic and fulvic acid, utilizing food-grade manufacturing equipment and systems for both product production and packaging. This patented process is different from the industry-standard residue-adding base-acid reactions and allows for the selection and isolation of compounds at the molecular level. The result is the ability to produce products that are concentrated, environmentally friendly, and purer than alternative fulvic mineral products.

DOCOFDETOX CALCIUM ION THERAPY

DOCOFDETOX Calcium Ion Therapy is developed from an innovative new biomaterial based on calcium carbonate derived from small oyster shells. A highly advanced process, Sigma Anti-Bonding, formulates the calcium to maintain positive charges (2+) by altering the bonding structure. Highly water soluble, with the positive charges of the calcium ion molecule attracting water molecules to cluster around it, it allows for direct and passive absorption into the body.

DOCOFDETOX Calcium Ion Therapy is not a targeted therapy focusing on relief from disease symptoms. Rather, **Calcium Ion Therapy** is a systemic therapy focused on treating the root causes of disease. Therefore, it generally takes longer to clinically experience the positive effects of **DOCOFDETOX Calcium Ion Therapy** treatment compared to symptom-targeted treatments. However, once disease momentum is reversed, recovery often accelerates with results that are far superior.

Stronger Bones Lead to a Healthier Life

A long term follow up study done in Denmark on 35,000 people revealed that people with strong bones in their 50s lived 11.6 years longer.

In Canada, 49% of infants are born with calcium deficiency. Only 70% recover after breastfeeding. Calcium deficiency during pregnancy and infancy leads to serious health issues.

Bone health is directly related to overall health. Emptier bone, characterized by osteoporosis or osteopenia, indicates not only a higher risk of fracture but also a greater chance of developing degenerative diseases. Why? Calcium emptying from bones causes **calcification** on both cellular and systemic levels, causing cellular communication mayhem by disrupting calcium signaling.

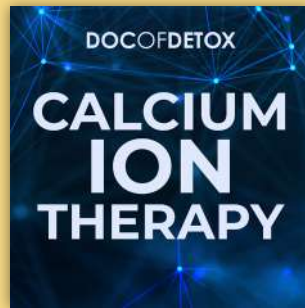

DOCOFDETOX Calcium Ion Therapy is an integral part of Advanced Water Fasting, along with Beyond Ormus Minerals, Fulvic Acid Concentrate, Infinite Iodine, **DOCOFDETOX** Enema Coffee and Enema Kit, Tummy Love, Black Gold and **DOCOFDETOX** Essential Oils: Super Cinnamon, Orange Burst, Lemon Lift and Frankincense.

Storage

DOCOFDETOX Calcium Ion Therapy is packaged in colored glass bottles for a longer preservation period. Product should not be stored in direct sunlight or below 55 Celsius. If stored correctly, unopened bottles will last more than 10 years without losing potency. Once opened, consume within 6 months to maintain potency. The bottle cap should be tightly closed immediately after each dosing to minimize exposure to air.

Directions

Shake well before use. Mix 1 teaspoon/5ml of **DOCOFDETOX Calcium Ion Therapy** liquid in 16oz/500ml of plain cool or room temperature water and drink immediately (within 10 minutes of mixing). Take only plain water 30 minutes before and after taking **Calcium Ion Therapy**. Take 2 to 5 doses per day, depending on condition and financial situation. If weighing under 150 pounds, the dosage can be adjusted down accordingly. For example, a person weighing 100 pounds can adjust the dosage to take $\frac{2}{3}$ of a teaspoon/3.3ml in 10oz/333ml of water. Do not increase the dosage for people who weigh over 150 pounds. **Calcium Ion Therapy** can be taken by children; product and dosage will depend on the condition.

DOCOFDETOX Calcium Ion Therapy can be nebulized. Only place as much calcium in the nebulizer as you will be able to nebulize in that sitting.

Calcium Ion Therapy has to be taken on an empty stomach, at least 30 minutes before and after any food or drink. More than 95% of **DOCOFDETOX Calcium Ion Therapy** will be absorbed within 30 minutes through diffusion and osmotic pressure. Any additives, such as other supplements or foods that trigger digestion, should be avoided because **DOCOFDETOX Calcium Ion Therapy** will interact and lose potency.

MARAGEN

MaraGen is the strongest **DOCOFDETOX Calcium Ion Therapy** product. MaraGen works to improve 147 degenerative diseases that are thought to be **calcification** related. Many pieces of research link cellular **calcification** to mitochondrial disease, metabolic syndrome, neurodegenerative diseases and even cancer.

By actively maintaining a slightly acidic micro-environment (pH 6.0-6.5) via lactic acid production, tumor cells effectively turn off immune response and establish malignancy. Calcium ions serve as a natural acid buffer and suppress tumor growth by neutralizing lactic acid and switching on the immune response around the tumor.

Most cancers have either mutation within the p53 gene or defects in the ability to induce p53 which is responsible for apoptosis (self-destruction). Many studies have shown that calcium ions can reactivate the p53 gene and induce apoptosis in many tumor cells.

Used as an alternative medicine for incurable diseases, **MaraGen** is formulated for clients with cancer and incurable diseases.

ALZIGEN

The global cost of Alzheimer disease and dementia is estimated to be \$605 billion. However, there are no drug treatments available that can provide a cure for Alzheimer disease yet. Further, many health professionals suggest age, genetics and mineral imbalances may cause Alzheimer disease.

Many scientists suggest that Alzheimer disease may be related to calcium. Both Osteoporosis and Alzheimer diseases are aging-associated, multi-factorial, progressive, degenerative diseases and both occur usually in seniors. According to recent scientific research, senior women who have low bone density are more than twice as likely to develop Alzheimer disease. This indicates that Alzheimer disease is closely linked to osteoporosis, however, the mechanisms underlying this are unknown.

DENTIGEN

Dentigen stimulates the release of TH and PTH that balances calcium homeostasis and increases the bone turnover rate by boosting osteoblast (bone building). **DOCOFDETOX Calcium Ion Therapy** rebuilds the alveolar bones of the maxillary and mandible thereby increasing the rate of successful implants or periodontal treatments. As a stand-alone treatment, 6-9 months of **Dentigen** treatment is recommended to build a strong dental bone structure including filling up an extraction socket with natural bone.

Working in conjunction with bone grafts, **Dentigen** significantly accelerates the rebuilding of extraction sockets, integration of grafted bones, and osseointegration of implant material. Complementing bone grafts with **Dentigen** speeds up the procedure and increases the success rate, making difficult cases possible.

CARTIGEN

Life can take a toll on bones and joints – wear and tear on cartilage can result in significant pain. Unfortunately, modern medical science only provides solutions that may ease pain and **inflammation** – along with many side effects; it cannot repair joints and cartilage. There are over 100 different forms of arthritis with the most common form being osteoarthritis (degenerative joint disease). Arthritis and back pain are usually treated simply with painkillers.

Calcium ions move freely in and out of blood vessels to reach joints and initiate cartilage repair by stimulating stem cells in the cartilage (namely chondrocytes). The anti-inflammatory and immune-normalizing effects of calcium ions offer a scientifically superior solution for easing joint disorder pains. Formulated for cartilage repair, **CartiGen** supports more calcium ions to permeate deeper into joints to help rebuild damaged cartilage (stem cell action). **DOCOFDETOX Calcium Ion Therapy** is the scientifically superior solution for treating cartilage disorders.

The effectiveness of **CartiGen** has been proven clinically; this selenium based 'cell restorer' helps calcium ions permeate deep into the cartilage to restore and eliminate the source of pain.

OSSO JR

Osso Jr helps kids to grow to their full potential height and build strong bones by supercharging osteoblast—the bone building process. **DOCOFDETOX Calcium Ion Therapy** helps to maintain a strong immune system by maintaining the body's pH in the optimal range, providing maximum oxygen to every part of the body. **DOCOFDETOX Calcium Ion Therapy** escorts phosphorus to bones and keeps it from pathogens to avoid pathogens multiplying. **Osso Jr** supports kids to be more energetic naturally – to simply be kids.

MEGAGEN

Osteoporosis and hormonal imbalances start affecting people in their middle ages. **DOCOFDETOX Calcium Ion Therapy** delivers calcium ions directly into the bloodstream, to balance hormones and initiate a cascade of repairing processes within the body resulting in numerous health benefits.

The most noticeable result is a strengthening of bones through stabilizing calcium homeostasis. **MegaGen** initiates the bone formation process (osteoblast) and builds strong bones, once believed to be impossible after age 35. **MegaGen** also helps to maintain an optimum blood pH of 7.35-7.45, optimizing oxygen flow and eliminating disease-causing pathogens.

Even as an antioxidant, **MegaGen** is unmatched in its potency and effectiveness. As calcium is involved in over 140 diseases, the health benefits which **MegaGen** brings is truly amazing.

INFINITE IODINE

Infinite Iodine, 'Nature's Weapon', is the ultimate daily immune support. With natural antiviral properties and all the nourishing qualities of iodide, Infinite Iodine is the only iodine in the world that delivers iodine in pico-sized and dalton-sized molecules – 10,000 times smaller than nano-sized molecules – in a safe liquid solution that the body can easily digest and absorb. The body can only absorb molecules that are pico-sized and smaller. To visualize these molecular sizes, picture a 1000 story building for a nano-sized molecule, a VW Bug beside the 1000 story apartment building for a pico-sized molecule, and an ant on the ground beside the VW Bug for a dalton-sized molecule. Now, those are small molecules!

The spray delivery method delivers the pico-sized (water based) and dalton-sized (gaseous) molecules most effectively.

Iodine is recognized as a world-class disinfectant. Like the immune system, Iodine kills viruses and bacteria (including variants) and our body uses iodine to kill viruses in the bloodstream which may facilitate the production of antibodies. Iodine has been shown to kill cancer cells in the body.

When iodine interacts with bacteria and viruses, it converts to its micronutrient form iodide. Iodide is an essential micronutrient that supports the maintenance of thyroid function, immune system function, metabolism and T3 and T4 hormone production. For optimum health, the thyroid requires iodide daily.

Infinite Iodine can be taken internally or used topically as a skin disinfectant. Many people keep iodine in their emergency kit for use in home remedies and survival situations. Iodine can be applied to minor cuts and scrapes or on hands when away from soap and water.

This 16oz Infinite Iodine is part of a protocol built by Dr. Darrell Wolfe for those suffering from life-threatening conditions, including cancer. Please call 1-855-900-4544 for more information.

Ingredients

USP Grade Iodine

The raw source material for Infinite Iodine is a liquid sodium iodide product extracted from a brine well deep within the earth in the United States. The iodide is separated from the sodium and converted through a process into iodine in its pure gaseous form. The iodine gas is then cooled, forming a pure crystal iodine. This crystal is then resublimed to a gas and a solid again to produce the highest quality pure US Pharmaceutical Grade Iodine 99.985%.

Ingredients

USP Grade Iodine, Vitamin C

The raw source material for Infinite Iodide is pure aqueous iodine converted to iodide through a break point ascorbic acid process.

Unlike Iodine, Iodide has no disinfectant properties. An essential micronutrient, it was added to table salt in the 1920s to reduce the incidence of goitre related illness and to increase the population's IQ.

The thyroid requires Iodide to produce T3 and T4 (Iodine) hormones which maintain the endocrine system, metabolism, and immune system function. It is a lack of Iodide in the diet that has created the epidemic of prescriptions for synthetic T3 and T4 (Iodine) hormones, with over 110 million prescriptions per year in the United States.

Insufficient iodide intake is directly related to fibrocystic disease in women.

Iodide is a fundamental ingredient in prenatal vitamins to ensure the health and brain development of infants.

The World Health Organization indicates that 2 billion people world-wide are Iodine (Iodide) deficient.

BOOST ENERGY LEVELS

Your body naturally produces IGF1 when you are a child and a young adult. However, after around the age of 25, your body's natural production of **IGF-1** sharply drops off. As you can see, it's no surprise that this is the same time in many people's lives when they begin to lose youthful energy.

INCREASE PASSION & STAMINA

We took an incredible **IGF-1** product and reformulated it to include the ingredient Long Jack (*Eurycoma Longifolia*) which is known to help the body naturally increase passion, testosterone levels, boost cardiovascular endurance, and help improve overall health and wellness. This energy nutraceutical is a powerful health product perfect for anyone looking to lead a more active lifestyle.

BUILD LEAN MUSCLE

Hypertrophy - when you work out, you are essentially tearing muscle fibers. As the muscle fibers rebuild themselves, muscle mass increases. This whole process is biologically known as hypertrophy, which is essentially an increase in the size of your cells. **IGF1** makes this process easier for your body.

Hyperplasia - this refers to the division and increased number of cells. **IGF1** is a key factor in kickstarting hyperplasia in the muscles. While your workouts increase muscle size, **IGF** goes to work and actually increases the number of muscle cells in the areas of your body targeted by your workouts.

REDUCE RECOVERY TIME

We can all become more susceptible to harmful injuries as we age, or through doing more intensive physical training. It's frustrating to lose days of activity because of injuries or sore muscles that need to recover.

The Growth Factor (**IGF1**) found in deer antler velvet extract has been shown to have links to injury recovery, which is why high-quality IGF products are so popular with athletes and anyone looking to lead a more active lifestyle.

BEYOND ORMUS

HIGH VOLTAGE ELECTROLYTE MINERALS

IT'S ALL ABOUT BALANCE

Taking high amounts of any mineral in isolation has the potential to throw off the elemental balance within our systems and create havoc in many ways. In order to utilize these very important minerals in our bodies properly, we need to provide them in balanced proportions so that they absorb well and benefit us the most.

The minerals in **Beyond Ormus** Minerals do just that. They work as a team, plain and simple.

For example, Magnesium needs Phosphorous (and many other minerals) to function properly in our bodies, yet that same Phosphorous also has a list of elements it requires to perform its functions. This pattern of co-dependency continues right across the periodic table. So while there is a very impressive amount of Ionic Magnesium in each serving, equally important is the presence of the other 70+ minerals and electrolytes.

Together this provides the proper balance that is crucial for a successful and effective formula.

PLEASE CONSIDER YOUR SOURCE THIS CAN'T BE OVERSTATED ENOUGH

Let's face it, humans are devastating this planet. Many things we do on a daily basis contribute to the ever-growing pollution problems we see and hear about. In today's world, in order to nourish our body properly, we need to be extra cautious when sourcing clean food and nutrients. It must come from a highly clean and pure source.

Beyond Ormus High-Voltage Electrolyte Minerals is an ocean-based trace mineral supplement. It is not pulled from an inland sea (lake) where there are endless concerns over water quality and contamination due to human intervention. Sourced from the Southern Hemisphere (Southern Australia towards Antarctica) where only 12% of the world's population lives also means almost zero industry and contamination.

In addition to getting our minerals from a pristine environment, we are actually sourcing them from a living, breathing, dynamic ecosystem where there are literally millions of life forms in every square inch of its water (ocean water, not lake). All these living beings break down the minerals from their inorganic rock form into a predigested, organic form that is perfect for us to absorb and utilize within our bodies.

Since our goal is to be more balanced and healthful, we should be looking for nutrients that exhibit these very same traits. ***Beyond Ormus Minerals does just that.***

C60

MCT & Hemp Oil

CARBON 60 – The ‘Miracle Molecule’

C60, or Carbon 60, is a recently discovered fullerene made up of 60 carbon atoms that form a structure that looks like a hollow soccer ball. Due to the unique bonding within this structure, C60 interacts with free radicals in the environment creating a surprisingly powerful and non-toxic superconductive antioxidant. The health molecule that Buckminster Fuller predicted had to exist was discovered two years after his death. The three scientists who found it won the Nobel Prize in Chemistry. C60 is reported to reduce the effects of aging, increase lifespan, **reduce pain and inflammation** to power up the immune system. Carbon 60 can be found in nature; it preceded life on Earth. In fact, C60 may be the foundational building block which supported the formation of the DNA double helix molecule. C60 is produced in the atmospheres of stars, meteor impacts and during lightning strikes. Knowing human bodies are Carbon based and over 23% Carbon, the importance of C60 is readily evident.

How does C60 work?

C60 works within a cell to decrease the oxidative burden by neutralizing oxidative radicals. C60 is known as a free radical ‘sponge’ with an antioxidant power far superior to other antioxidants. In one study, C60 was shown to be 300 times more potent than vitamin C in antioxidant power! C60 helps to maximize the metabolic efficiency of cells in the production of energy, hormones and in cellular metabolism.

98% OF ALL C60 COMES OUT OF CHINA. BUYER BEWARE.

Did You Know That, By Weight, C60 Is 7 Times More Expensive Than Gold?

What Studies Are There On C60?

The most profound and attention-grabbing C60 study was released in 2012. The study showed that C60 increased the lifespan of rats by 90%. Rats normally live two and a half years, however, the rats taking C60 lived five years nearly doubling their typical lifespan. In fact, it is reported that the researchers ended the lives of the C60 rats in order to conclude the study and publish their findings. Other studies on mice have shown similar results in increasing lifespan and healthspan due to an increased production of the 'energy molecule' ATP. Studies demonstrated C60 **reduced inflammation** by 223%, when measuring the two inflammatory markers IL6 and IL8. 'Leaky mitochondria', that contribute to aging, **inflammation and poor immune system functioning**, can be repaired with C60.

What Makes Carbon 60 The 'Miracle Molecule'?

DOCOFDETOX C60 is produced using an advanced undisclosed government grade technology. This process and facility is primarily used to supply government contracts because of the extreme quality and integrity of the product produced. It is speculated that every NASA astronaut must take C60 prior to space-based missions.

C60 is superior to vitamin C for supporting immune health. Take it to help prevent the common cold and to enjoy the many other benefits. C60 is one of the three pillars for a strong immune system, along with Vitamin D3 and Infinite Iodine.

The particles in **Bright Eyes Nano Fulvic Drops** are five times smaller than **Fulvic Acid Concentrate**. This rare and lightweight molecular fraction of fulvic acid is optimal for use in the eyes because the nano sized molecules will assist in the transportation of nutrients across the blood-brain barrier and in purging heavy metals from the eyes and the body. The rods and cones in the eyes regrow themselves every forty eight hours, if given the correct micronutrients. Bright Eyes **Nano Fulvic Drops** provides up to 60 minerals and elements and chelates toxins, assisting in regrowing the rods and cones in the eyes and improving eyesight.

Extensive hospital eye clinic studies using humic extracts of **fulvic acid** showed 100% success in curing eye diseases caused by viruses, bacteria, or fungus, healing ulcerous wounds, **relieving inflammation**, and stopping hemorrhaging without side effects.

Hospital eye clinic patients with ulcerous cornea infection had 94.2% success rate when treated with **Fulvic Nano Drops** and injections.

A study performed at an eye clinic in a hospital in Shaoxing, Zhejiang Province, China studied 47 cases of patients experiencing bloodshot eyes. Treating with **Fulvic Acid Eye Drops** and intramuscular injection, the success rate for healing was 93.6%.

DMSO

Directions

General: Rub a small (pea size) amount to the area of concern. A slight tingle or stinging feeling is normal. If irritation occurs, wash the DMSO off. Mix with coconut oil to avoid irritation in future applications. Use DMSO Gel on joints and scar tissue. Use DMSO Cream on more sensitive areas.

DMSO and Castor Oil: This combination softens masses, detoxifies organ systems and dissolves crystallized calcium deposits. Apply a thin layer of castor oil to clean dry skin then pat on either DMSO Gel or DMSO Rose Cream and let the combination absorb for 10 minutes. Leave on or wash off after 20-30 minutes. Alternatively, apply a Castor Oil Pack and follow with DMSO application after Castor Oil Pack treatment.

DMSO and Silver Bullet Solution: Apply a mixture at a 1:1 ratio to topical wounds to enhanced healing.

DMSO and CBD Oil: Apply DMSO Gel or DMSO Rose Cream with CBD Oil to enhance healing of pain and **inflammation** and to promote relaxation, sleep and support the nervous system. Rub over the temples, forehead, back of the neck, spine, and bottom of clean feet.

Hair Growth: Apply DMSO along with Hair Restore, following dry skin brushing and clapping.

Note: Do NOT use DMSO Gel or DMSO Cream around the eyes.

Caution: May cause skin irritation. Thinner skin will be more sensitive. Avoid contact with eyes, skin, and clothing. Wash hands thoroughly after handling. In case of eye contact, immediately flush eyes with water.

ULTIMATE COFFEE ENEMA

Did you know that enemas are one of the oldest medical treatments known to man? The oldest known medical text, the Egyptian Ebers Papyrus dating back to 1500 BC, records the use of enemas. Enemas were used throughout the ancient world in Samaria, Babylonia, India, Greece, Africa, and China. Greek literature is filled with references to the therapeutic use of enemas. American Indians, as well as pre-Columbian South Americans, crafted enema bags from animal bladders, latex, and bones.

Coffee enemas appeared in modern medical literature as early as 1917. German scientists discovered that coffee was able to open the bile ducts and increase the production of bile by the liver. The purpose of the coffee enema is to support the liver in eliminating toxins and to cleanse the blood.

The substances found in coffee, kahweol and cafestol palmitate (palmitic acid), stimulate the activity of a key enzyme system, glutathione S-transferase, better than other therapies. This system detoxifies a vast array of pathogens from the bloodstream, this is a very important mechanism for detoxing carcinogens. This enzyme group is responsible for neutralizing free radicals. It is known that kahweol and cafestol palmitate can increase the liver's production of glutathione by as much as 700%. Glutathione is an antioxidant that helps make proteins in the body.

In addition, two other chemicals found in coffee (theophylline and theobromine) dilate blood vessels and **reduce inflammation** of the gut. As mentioned before, the palmitates enhance the enzyme system that is responsible for the removal of toxic free radicals, and the fluid of the enema stimulates the visceral nervous system to promote peristalsis of the colon and the transit of diluted toxic bile from the duodenum, which is the first part of the small intestine and out the rectum.

Coffee travels through the left hemorhoidal vein to the portal vein, which delivers the coffee to the liver. The coffee enema is typically held for 15 minutes. All blood cells in the body move through the liver every three minutes, this means that during a coffee enema, all blood cells of the body experience detoxification.

Max Gerson, M.D. began using coffee enemas first with his patients suffering from tuberculosis and then later with his cancer patients. Dr. Gerson found that the physical root cause of his patients' cancer was toxicity and nutritional deficiencies. Gerson started using coffee enemas to support the liver in its ability to effectively eliminate the toxins that were being forced out of the tissues through his other detox therapies. To this day, coffee enemas remain one of the key elements in Gerson Therapy.

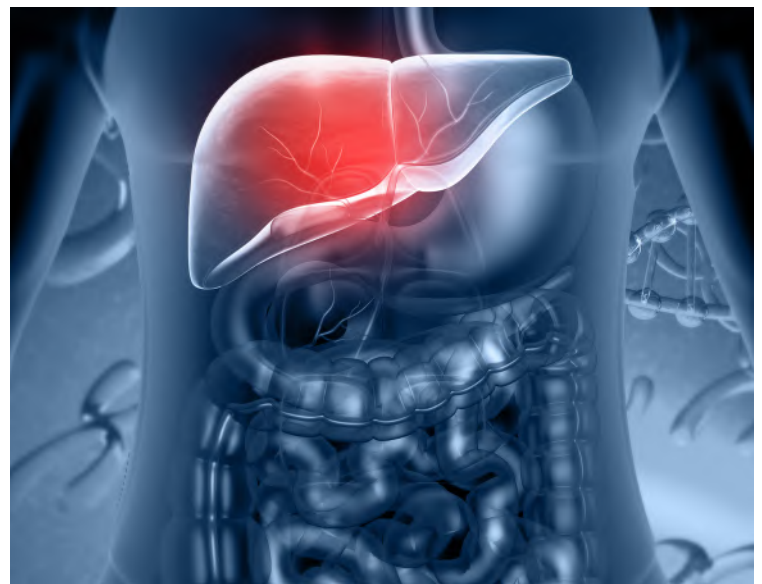

Dr. Gerson understood that the liver becomes overburdened by the continuous release of toxins and that it is necessary to find proper support for detoxification.

He found that detoxification could best be facilitated through the caffeine in coffee, absorbed in the descending colon through the hemorrhoidal vein, which

carries the caffeine to the portal vein and the liver. The caffeine stimulates the liver and biliary ducts to open for the release of waste products and toxins into the intestinal tract to be eliminated.

In 1969, Dr. William Kelley, learning from Dr. Gerson, administered coffee enemas on himself during his two year battle with pancreatic cancer. He continued utilizing coffee enemas with his cancer patients until his passing in 2006. Both doctors noted remarkable healing in those patients who employed coffee enemas.

Keep in mind that coffee enemas are for detoxification of the liver and blood – not to eliminate the bowels. Coffee enemas do help to remove waste from the bowels but this is not the intention. Coffee enemas have been used for over one hundred years as a generalized detoxification procedure. Coffee enemas are perfectly safe when taken as directed. Perform **Belly Button Therapy** 5 minutes prior to administering a Coffee Enema to fully relax the pelvis and abdomen.

Coffee Enemas are an integral part of Advanced Water Fasting, along with **DOCOFDETOX Calcium Ion Therapy**, Fulvic Acid Concentrate, Beyond Ormus Minerals, Infinite Iodine, Tummy Love, Black Gold and DOCOFDETOX Essential Oils: Super Cinnamon, Orange Burst, and Lemon Lift.

What You Need:

DOCOFDETOX Organic Enema Coffee
Stainless Steel Enema Bucket
Structured Water

Cleaning Supplies Needed:

Hydrogen Peroxide *(available at a pharmacy)*
Dr. Bronner's Liquid Soap *(available at natural food grocers)*

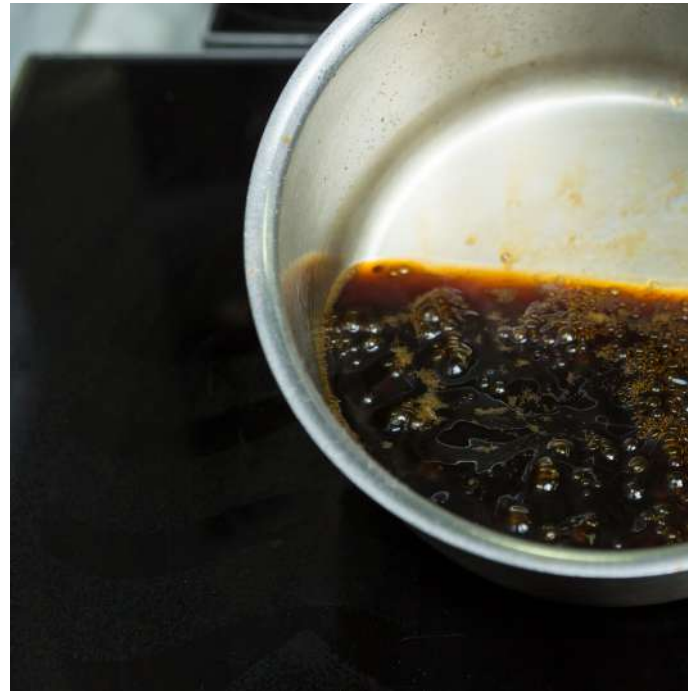

The Ultimate Coffee Enema is 500% more effective than any other enema. As the world changes, we must change with it, in the past 20 years the world has become more toxic than in the past 5 centuries. The DOCOFDETOX Ultimate Coffee Enema not only detoxifies more effectively than any other coffee enema but also removes 500% more toxins, heavy metals and chemicals. The Ultimate Coffee Enema also delivers 70+ essential micronutrients to the large intestine & liver. Take massive personal action for massive healing.

ULTIMATE COFFEE ENEMA

STEP 1. Always perform **Belly button therapy** thoroughly on yourself before any coffee enema, this ensures total relaxation, otherwise a parasympathetic state for easier elimination and rejuvenation.

STEP 2. Add 1 teaspoon to 3 tablespoons of **DOCOFDETOX Organic Green Coffee** grounds and 1 teaspoon to 1 tablespoon of **Black Gold** to 16oz/500ml of **Structured Water** in a glass, ceramic or stainless steel pot. Aluminum is not recommended as aluminum can leach into the coffee. The reason why the patient/client would reduce the normal amount of 3 tablespoons of green coffee to 1 teaspoon and gradually work up is when someone is or feels they are hypersensitive to coffee. But understand this, coffee is much more accepted rectally than orally by the body, if you have trouble sleeping, it is best to do your coffee enema earlier in the day until you feel comfortable with its results. The patient/client should use more **Black Gold** in their **Ultimate Coffee Enema** when there is increased **toxicity, inflammation** and/or lack of tone in the liver and/or large intestine.

When doing the **Ultimate Coffee Enema**, **Black Gold** will nourish the cells with 70 micronutrients in the large intestine & the liver via the portal vein. After unloading 70 micronutrients in the tissue cells it will then magnetize, otherwise, absorb and lock-down heavy metals, chemicals, GMOs, and toxins with up to 400% of its weight. What this means is the most powerful detoxification without ANY negative side effects.

STEP 3. Bring the **DOCOFDETOX** coffee, **black gold**, and **Structured Water** mixture to a boil for 5 minutes then simmer for 15 minutes.

STEP 4. Make sure the tubing on the enema bucket is clamped closed before pouring any liquid into your stainless steel **DOCOFDETOX** bucket.

STEP 5. After simmering for 15 minutes, strain your **Ultimate Coffee Enema** mixture using a fine-mesh strainer into another pot, then pour the **Ultimate Coffee Enema** mixture through the **Structured Water** unit into the Enema Bucket.

NOTE: *If short on time, the Ultimate Coffee Enema mixture can be made the night before, though it is better fresh. Add warm to hot water to the Ultimate Coffee Enema mixture to bring it up to a comfortable internal body temperature before administering. What I do is take a few drops on the inside of my wrist, this tells me if the temperature is appropriate.*

THE DOCOFDETOX ULTIMATE COFFEE ENEMA

*“The Best Place For Coffee
Is In The 'Other' End”*

— Dr. Darrell Wolfe —

STEP 6. Add 1 to 3 teaspoons of Tummy Love or 1/8th to 3/8th of a teaspoon (1 to 3 stick packs) of Black Diamond Crystals. The amount that you add to the enema bucket will depend on the severity of the problem.

NOTE: Black Diamond and Tummy Love are both made up of 70% Humic and 30% Fulvic. Black Diamond will be absorbed deeper in the tissues. Tummy Love will help to restore hormonal balance along with purging toxic waste from the liver which prevents the reabsorption of these toxins when doing the **Ultimate Coffee Enema**. This is essential due to the majority of the population having leaky gut syndrome but can be more accurately called a gut-brain disconnection.

STEP 7. Add **Structured Water** to bring the total amount of liquid to 1 quart/1 liter (32oz). You can now do your **Belly Button Therapy** to release tension and relax the colon.

STEP 8. Bathroom protocol - place a thick towel and a pillow on the floor, close to the toilet for your comfort. Some people will utilize the shower or the bathtub if it is a large enough space. Waterproof pads will protect the floor in the event of an accidental spill or leak.

STEP 9. Hang your enema bucket on a door-knob, towel rod or shower curtain with a strap, belt or an S hook. Elevate the bucket at least 2 feet above the floor, but know that the higher it is, the more powerful the flow. For those who have **inflammation**, hang the Coffee Enema Bucket only 10-12 inches high until the enemas bring down the **infection or inflammation**.

STEP 10. Slightly tilt the enema bucket towards the out-spout so that the liquid slowly fills the tube to the clamp. Then release the clamp so the liquid goes to the end of the enema tubing, use a clean container to catch any spill to pour back into the enema bucket. This is to ensure no air is trapped in the system.

STEP 11. Lubricate both the tip of the shorter colon insert and your anus, using organic olive oil or coconut oil.

STEP 12. Lie on your left side and slowly insert the tip of the enema tube into the rectum only to the length of the insert.

NOTE: Avoid kinks in your tubing; kinking will block the flow.

STEP 13. Release the clamp while pinching the tube, gradually allowing the liquid to flow in until you feel slight pressure. Re-clamp. Stay connected to the **Lion Heart Breathing** and gently roll onto your back. Allow another portion of the coffee enema mixture to flow in until you feel slight pressure. Re-clamp and continue the Lion Heart Breath. Now, gently roll to your right side and release the clamp and continue to fill the large intestine until you feel the warm liquid is above the right hip in the lower quadrant of your abdomen which is known as the Cecum Area.

STEP 14. Hold the Coffee Enema for 12–15 minutes. During this period for additional support and to encourage the detoxification process, use a Hand Thumper, Massage gun or slight finger pressure to massage and loosen/stimulate the large intestine. Start at the sigmoid (left hip) and continue up the descending part of the large intestine and then across the transverse colon, which is 2-3 inches above the belly button. Work your way down the ascending part of the large intestine to the cecum area which is just above the right hip. Massaging this area will trigger the liver-cecum pump. Now repeat these steps in reverse order while staying connected to your **Lion Heart Breathing**. Just know this, repetition is the art of perfection, your first enema may be awkward and a little difficult but it is well worth the effort; so be patient and become your own practitioner!

NOTE: Holding the DOCOFDETOX Ultimate Coffee enema longer than 15 minutes is counterproductive. Longer than this, you may reabsorb the toxins you were wishing to expel. But just know this, because of the additional Black Gold and Tummy Love, you have just detoxified and eliminated 500% more toxins thanks to the DOCOFDETOX Ultimate Coffee enema.

EYE THERAPIES

Silver Solution & Spray

Eyes: Place 1 drop in the corner of each eye 3 to 6 times per day. The drops may be used with contact lenses. Can also be nebulized 3 to 6 times per day.

Eye Wash: For any degenerative eye condition, fill an eye cup with 1 teaspoon of Silver Bullet Solution. Put the eye over the eye cup and tilt your head back to soak the eye. Repeat with Bright Eyes Nano Fulvic Drops. An eye wash can also be done by mixing Silver Bullet Solution and Bright Eyes Nano Fulvic Drops.

Infinite Iodine

Eyes: use 1 drop in each eye 1 to 3 times per day.

Bright Eyes Nano Fulvic

Eyes: Place 1 drop in the corner of each eye 3 to 6 times per day, along with 1 drop/spray of Silver Bullet Solution. A slight stinging sensation is indicating the fulvic acid is cleansing toxins from the eyes. With continued use, the stinging sensation will lessen indicating an improvement in the toxicity levels in the eyes. The drops may be used with contact lenses. Bright Eyes Nano Fulvic Drops can also be nebulized 3 to 6 times per day.

Eye Wash: For any degenerative eye condition, fill an eye cup with 1 teaspoon of Silver Bullet Solution. Put the eye over the eye cup and tilt your head back to soak the eye. Repeat with Bright Eyes Nano Fulvic Drops. An eye wash can also be done by mixing Silver Bullet Solution and Bright Eyes Nano Fulvic Drops.

EAR INFECTIONS, TINNITUS & LOSS OF HEARING

Step 1

Clap the top, the bottom, front and back of ear for 5 to 10 minutes with your clapper to increase circulation.

Step 2

Put 6 to 8 drops of infinite iodine into ear.
Let Infinite Iodine soak in ear for 3 to 5 minutes.

Step 3

1 to 2 drops of MCT C60 or Ear Restore essential oil into ear.

Step 4

Squirt a tiny amount of Silver Bullet Gel into ear canal

Step 5

Put a heating pad or warm water bottle on the area of the ear to increase circulation and healing for 15 to 20 minutes. Or leave it in all night while sleeping.

If you own a Bioptron full spectrum light, place it 2 inches from the ear and shine the light into the ear canal. This will create the greatest healing.

Step 6

When you rise, gently use a Q-tip to clean the inner ear.

NOSE/SINUS THERAPIES

Silver Solution & Spray

Nose (sinus): 2 sprays in each nostril 3-6 times per day, but Nebulizing is the most powerful way of detoxification for the sinuses, lungs, brain, blood and heart. You can **nebulize** Bright Eyes nano Fulvic Drops straight or you can mix them 50/50 with Silver Bullet Liquid - Nature's strongest antibiotic.

DOCOFDETOX Calcium Ion Therapy can be nebulized. Only place as much calcium in the nebulizer as you will be able to nebulize in that sitting.

Infinite Iodine

Nose (sinus): Nebulize 1 part infinite iodine to 3 parts distilled **Structured Water**. This dilution is for those who are sensitive due to inflammation. Once inflammation starts to subside, try diluting less and less until you are nebulizing only Infinite Iodine, with no distilled Structured Water.

Bright Eyes Nano Fulvic

Nose (sinus): Nebulizing is the most powerful way of detoxification for the sinuses, lungs, brain, blood and heart. You can nebulize Bright Eyes nano Fulvic Drops straight or you can mix them 50/50 with Silver Bullet Liquid - Nature's strongest antibiotic.

**Nebulizer*

THROAT THERAPIES

Infinite Iodine

Throat: For thyroid conditions, 5 sprays of Infinite Iodine can provide the nutrients to balance the thyroid.

Immunity Essential Oil

Throat: Protects against viruses and bacteria and purifies the environment! Prevents and heals infections, improves respiratory conditions, boosts the immune system and provides resistance to disease. Rub on neck, mix with Structured Water and use as a mouthwash, diffuse and inhale.

LION HEART BREATHING

TECHNIQUE STEPS

1.

Shift awareness to the heart and place the right hand over the heart and the left hand over the belly button.

Inhale through the nose for 6 seconds.

2.

Take a slow, deep, relaxed breath in through the nose for 6 seconds, with eyes closed or open. Hold this breath for 1 to 3 seconds to enter stillpoint. Exhale for 7 seconds out through the nose.

Hold for 1 to 3 seconds.

3.

When breathing, feel the breath originating from the heart and focus on feelings of love, gratitude, joy and compassion.

Exhale through the nose for 7 seconds.

When performing **Lion Heart Breathing**, feel, think and be:

1. Love for Everything and Everyone
2. Gratitude for Everything and everyone
3. Joy for Everything and Everyone
4. Compassion for Everything and Everyone

Within 72 hours of initiating **Lion Heart Breathing Technique**, according to scientific research, the heart/brain/body connection will establish new neural networks between each other. It takes 3 days (72 hours) to establish new neural networks. Stronger networks will be created when frequently repeating **Lion Heart Breathing Technique** throughout the day.

Performing 3 minutes of **Lion Heart Breathing Technique** sets in motion a cascade of life-enhancing hormonal and chemical events in the body that will last 6 hours.

You have the ability to trigger this life-changing response anytime and anywhere. This simple technique will awaken the real you and lead you to your greatest potential; it is the key to your personal point of power.

Retrain Your Brain”*

— Dr. Darrell Wolfe —

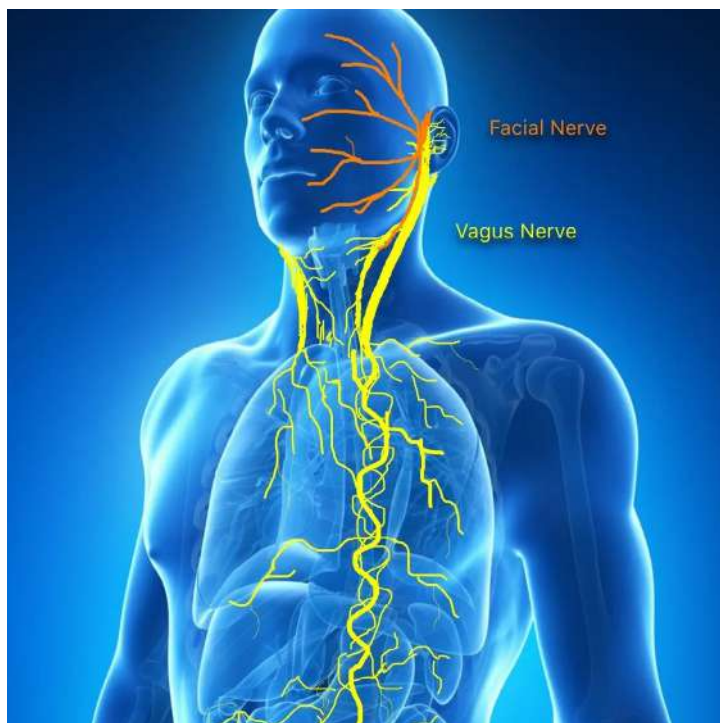

BRAVEHEART BREATHING TECHNIQUE

Prior to beginning **BraveHeart Breathing Technique**, do 5 minutes of **Belly Button Therapy** to trigger the brain to release relaxation and healing hormones by stimulating the **Vagus Nerve**.

Initiate **BraveHeart Breathing Technique** by assuming the **BraveHeart Stance**.

BraveHeart Stance:

1. Eyes Wide Open
2. Neck Elongated
3. Chin Up
4. Shoulders Back
5. Back Straight
6. Chest Out
7. Sternum Reaching for the Sky
8. Confidently Smile
9. Smile with the Eyes

BraveHeart Breathing Technique Steps:

1. Start with the arms in a weightlifter pose (90 degree angles) and the hands in fists. Breathe in deeply through the nose while bringing the arms straight up in the superman pose and opening the hands.
2. Breathe out through the nose while closing the hands into fists and bringing the arms back down to weightlifter pose (90 degree angles).
3. Do 30 repetitions of the **BraveHeart Breathing Technique** 3 times per day.

Intention Is Everything

Lion Heart Breathing and BraveHeart Breathing Techniques open access to the subconscious; awaken all senses and abilities to become the master of your belief systems and to master your purpose in life.

Care for yourself not because you are afraid of becoming sick; care for yourself because you **love**, honor, respect, protect and trust yourself.

LION HEART BREATHING TECHNIQUE

Lion Heart Breathing Technique is a simple yet powerful daily practice. Place the right hand over the heart and the left hand over the belly button to realign the body before initiating the breath pattern. The mind instantly goes where there is touch; touching the heart directs one to process through the heart rather than the mind.

Consciously focus on and connect to the heart before engaging the Lion Heart Breath.

Begin by taking a slow, deep, relaxed breath in through the nose for 6 seconds, with eyes closed or open. Hold this breath for 1 to 3 seconds; this is called stillpoint. In a stillpoint state, the body naturally dissolves stress, tension and dis-ease; it activates the glands and the energy system of the body, shutting down mindless chatter and shifting us into consciousness and the full expression of who we really are. Finish the cycle by exhaling for 7 seconds out through the nose.

Performing 3 Lion Heart Breaths will initiate the process of bringing one back into the present moment – the only personal point of power. Performing the **Lion Heart Breath Technique** is essential, before opening the eyes upon waking and before going to sleep every night. Do the technique many times throughout the day to realign and move back into the present moment.

Shallow and slow breathing tells the body one is in danger of being eaten or is under attack. The **Lion Heart Breathing** Technique reinforces a sense of safety; the only time breath is slow and deep is when feeling safe and living a big, joyful and happy life. It is important to create and reinforce a belief system of 'I am safe'.

Practice **Lion Heart Breathing** daily to stay heart smart and to master the mind. To change your state, you must change your physiology.

The more one practices **Lion Heart Breathing**, the more one will master **love** for others and **love** for themselves. The Lion Heart Breath connects and unites the heart, brain and body; a 0.1 Hertz Gamma State is created through combining the slow breath pattern with placement of the right hand over the heart and the left hand over the belly button. This triggers neurons from the brain and the heart to connect with one another and create full-body harmony.

LENGTHEN STRENGTHEN DETOX & TONE

PELVIC ACTIVATION SQUATS

Pelvic Activation Squats are like a breath for the pelvis; they stimulate the metabolism and digestive organs, activate the spinal fluid, and provide the best stretch to open up the pelvis like a flower. Pelvic Activation Squats stretch the ankles, calves, hip joints, groin/hip flexors, glutes, and back. Remember to practice **Lion Heart Breathing** throughout the exercise. Hold each position for 2-4 minutes.

CHIRO PLATE EXERCISE

Lay on the back and place a small plate at the occipital ledge (where the neck meets the skull) at an angle of about an inch back so the plate is not straight up and down. Relax and engage **Lion Heart Breathing** to allow the plate to sink into the occipital ledge and create space. Turn the head and repeat on the side of the occipital ledge. Roll the head while breathing to locate tight or tender places that need to open up and let go. Pause in these places and continue with the **Lion Heart Breathing**. Continue the process by moving the plate down between the next two vertebrae and repeat. Adjust the plate forward and backward to adjust the angle as needed. When beginning, perform the exercise for 1 to 2 minutes.

BELLY BUTTON THERAPY

YOUR DAILY DOSE TO HEALTH, HEALING & HAPPINESS

Belly Button Therapy is a quick, one-step, self-healing therapy that mindfully stimulates the belly button for gut and brain health. **Belly Button Therapy** relieves pain and stiffness, stimulates good bacteria, raises core body temperature, boosts the immune system and releases serotonin and dopamine. The belly button is an important reflexology point at the center of the body that stimulates the intestines and brain at the same time. Experience immediate stress and pain relief, plus get more energy, by doing this for only 5 minutes 2 times per day! Perform **Belly Button Therapy** before doing therapies and exercises including Coffee Enemas, Clapping, Pelvic Expander, Pelvic Activation Squats, Core Twisting, Crab Stretch and Occipital Plate as well as after strenuous exercise and after experiencing any stress, trauma or conflict.

RELEASES MORE SERATONIN,
DOPAMINE, OXYTOCIN, AND
ENDORPHINS THAN ANY DRUG

MINUTES OF BELLY BUTTON THERAPY
YOU WILL HAVE 20 TO 25% MORE
STRETCH THROUGHOUT YOUR BODY
BECAUSE HORMONES AND CHEMICALS
TRAVEL AT THE SPEED OF LIGHT.

BELLY BUTTON HERBAL THERAPY

Behind the belly button lies the main point to activate the vagus nerve. The vagus nerve, historically cited as the pneumogastric nerve (stomach and lung), is the tenth cranial nerve. It interfaces with the parasympathetic control of the heart, lungs, and digestive tract.

The word “vagus” means wandering in Latin. This is a very appropriate name, as the vagus nerve is the longest cranial nerve; it runs from the brainstem to the large intestine (colon).

The end of an umbilical cord attaches to the Pechoti gland which remains after birth. Every human has a Pechoti gland, connected to more than 72,000 nerves that run throughout the body to various organs and tissues.

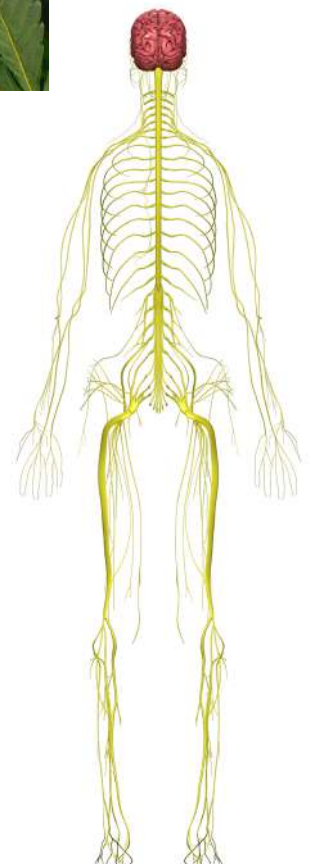

By applying cannabis oil to the Belly Button, utilizing the Pechoti Delivery Method, cannabinoids have the ability to reach every part of the body via the vagus nerve that lies behind the belly button. This is a benefit no other delivery method can provide.

After completing 5-7 minutes of **Belly Button Therapy**, place 1-3 drops of Frankincense Essential Oil (depending on size of belly button) and then 1-3 drops of cannabis oil into the belly button. Repeat this procedure 1-4 times per day or every 4 hours if necessary.

Push the body's main button to turn on the power of healing!

CLAPPING

store.docofdetox.com

Clapping is a technique for self-healing and self-diagnosis that dates back thousands of years. This powerful technique activates T cells and stem cells while increasing microcirculation for tissue regeneration and immunity. **Clapping** is a non-invasive natural way to build the immune system and restore the joints, tissues, muscles and organs. This technique, along with Wolfe Non-Surgical Body Therapy and the **Perfect Day**, will reverse almost every joint issue, muscle ache and abnormal growth in the human body.

Before **clapping**, do **Belly Button Therapy** to move the body into a parasympathetic healing state. For ultimate therapeutic benefits, it is recommended to clap an area of the body for 15-60 minutes; clap longer for serious conditions. Note, often color/bruising appears when **clapping**. **Clapping** does not create bruising but brings existing diseased tissues and blood to the surface. If there is no bruising, there is no disease present. Focus on **clapping** areas of pain along with the sides of the neck, head, lymphatic areas (armpits and groins) and joints of the body: hips, knees, feet, shoulders, elbows and wrists/hands.

EXTERNAL & INTERNAL THERAPIES

DRY SKIN BRUSHING

store.docofdetox.com

Skin brushing is one of the simplest and least expensive health routines a person can do. Beautiful skin, great circulation, keeping the dust down and health up are just a few of the amazing benefits of dry skin brushing!

Gently detoxing the skin each and every day is an important step for keeping **pain, inflammation and disease** at bay.

Most people's skin is overburdened by toxins and waste from a mismanaged large intestine. After all, the skin does mirror the health of the large intestine! Most medical and natural health practitioners gravely overlook the importance of this connection when it comes to detoxification. The skin is the first organ to show nutritional imbalances and deficiencies.

The medical system still promotes the idea that diet, nutrition and detoxification have no bearing on the skin. Skin is not just the body's largest organ – it's the body's largest detoxification organ. The average adult eliminates 1 pound of waste per day through the skin via the sweat glands and sheds approximately 8.8 pounds of dead skin cells each and every year! Where do you think the majority of dust in a house comes from?

Did you know that the skin is also known as the third kidney? The skin takes on the kidneys' toxic burden when they are overworked; the kidneys become overworked because of a sluggish large intestine. Fortunately, the skin can renew itself every 28 days and dry skin brushing speeds up the renewal process!

Did you know that skin brushing dates back thousands of years? Hippocrates, known as the father of medicine, taught Skin Brushing as part of his curriculum at the school of medicine.

A word of caution, if not showering in **Structured Water**; in one 10 minute hot shower, as much chlorine and fluoride will be absorbed as if drinking 10-20 glasses of tap water. The skin absorbs 72% of all the chemicals found in tap water when showering.

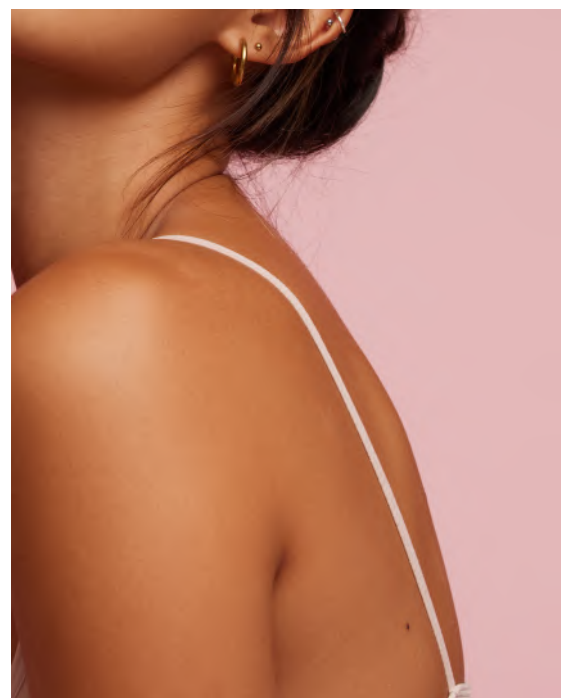

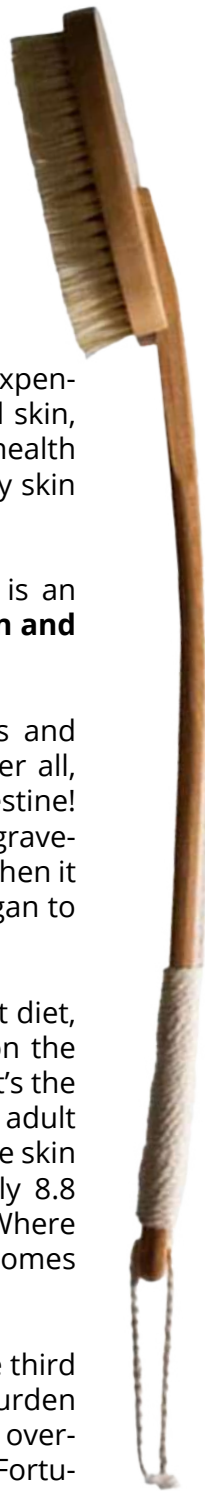

Showering in **Structured Water** eliminates the harmful effects of tap water, heals skin conditions and hydrates the skin with the equivalent of 4 glasses of **Structured Water** in a 10 minute shower.

What You Need:

DOCOFDETOX Natural Bristle Dry Skin Brush

Directions:

Using a natural bristle dry skin brush, brush the entire body starting at the feet and moving up toward the head. Brush in a circular motion toward the heart, focusing on the lymph nodes. Skin will be a light pink color when done – do not over brush the skin. The skin is the largest detox organ of the body and a reflection of the health of the large intestine. Skin brushing removes dead skin cells, boosts circulation, stimulates the lymphatic system and helps to eliminate toxins.

AVACEN

The AVACEN 100 is a patented and FDA-Cleared Class II medical device that uses cutting edge technology developed by AVACEN Medical. It incorporates heat therapy and negative pressure to increase local circulation and infuse heat into the unique vascular network located in the palm of the hand. Raising the blood temperature at this "single point treatment" (the palm) increases blood temperature throughout the body naturally via the circulatory system. This can benefit the entire body.

The AVACEN 100 uses the AVACEN Treatment Method (ATM) – a non-invasive pain management technology platform for people at normal body temperature. This technology platform uses a microprocessor controlled chamber to surround the hand with a slight negative pressure, while adding heat to the palm.

This negative pressure expands the volume of blood in the palm's unique vascular networks while heat is simultaneously transferred from the computer managed palm pad into these expanded vascular networks.

INCREASES MICROCIRCULATION BY 67%

*"Find Peace
Within Chaos"*

— Dr. Darrell Wolfe —

Avacen Uses:

- ♥ Arthritis
- ♥ Minor muscle & joint pain
- ♥ Muscle spasms
- ♥ Stiffness
- ♥ Minor strains & sprains
- ♥ Muscle relaxation

**FDA-Cleared and CE Mark Approved OTC
Non-Invasive Medical Device*

How it works:

Increasing the body's blood temperature from within the vascular network, rather than from outside through the use of a spa, sauna, or heating pad, is the key to the entire process. The palm of the hand is one of the best places for applied heat therapy because of the unique network of blood vessels that exist very close to the skin.

When the body naturally heats up, it pumps more blood to the hands and feet to dissipate the excess heat. That's why sticking a foot out of the covers at night easily cools the body. The AVACEN reverses that process to improve the body's microcirculation.

While this method seems simple, it was actually overlooked as a treatment solution. Except for the intentional creation of hyperthermia to treat cancer, the primary purpose for infusing heat into the circulatory system was to move people suffering from extreme cold and shock to normal body temperature as safely as possible. When the body recovered and the objective was reached, the job was considered complete and no further warming nor testing was conducted.

The patented AVACEN Treatment Method (ATM) infuses heat into the circulatory system of people with a normal body temperature. As a result, the body works to dissipate the unwanted infusion of heat by pumping warmed blood through deep tissue. This causes blood vessels and capillaries throughout the body to expand in order to dissipate this excess heat. This normal thermal-exchange process is called radiation. This results in significant benefits for arthritis and muscular relaxation.

FULLERENE LENS

FOR BIOPTRON FULL SPECTRUM HEALING

BIOPTRON Hyperpolarized Light (HPL) utilizes the 'miracle molecule' Fullerene C60 to revolutionize healing light technology.

The discovery of C60 in 1996 was awarded the Nobel Prize in chemistry and opened a new field of study and research in symmetric nanomaterials. This new arena of nanotechnology and nanomedicine stimulated scientists and engineers to discover multiple applications for C60 such as new cancer treatments, lightweight batteries, and powerful rocket fuels.

The Fullerene C60 nanophotonic filter acts as a generator transforming the existing BIOPTRON Vertically Linearly Polarized Light (VLPL) into Hyperpolarized Light that has circular left and right polarization and Linearly Vertical and Horizontal polarization ("sunflower photons pattern"). This unprecedented, perfectly-ordered Hyperpolarized Light, called Quantum Hyperlight, with its unique photon pattern, arranged by the Fibonacci Law, is the ideal energy-structure/symmetry that is fully compatible with our biostructures. HPL transfers the energetic state of ideal harmony of C60 into the body inducing harmonization and equilibrium in energetically disturbed biological structures thus accelerating natural healing and regenerative processes.

SUGGESTIONS FOR ENDING A DOCOFDETOX ADVANCED WATER FAST

**After your DOD Advanced Water Fast is complete,
for the first day and a half consume only:**

- ♥ Homemade Vegetable Broth
- ♥ Celery Juice
- ♥ Fermented Drinks

All nutraceuticals that you were consuming on your Advanced Water Fast. You will also continue with Doc Of Detox external therapies such as the Salt Glow, Skin Brushing, Castor Oil Pack, Belly Button Therapy And Clapping.

IMPORTANT:

Your digestive system has had the ultimate vacation, so make sure you break your fast SLOWLY so that you don't overburden your body and shock your system. Only take in small amounts of homemade vegetable broth, celery juice, & fermented drinks. For the first day and a half, use a straw and lean your head forward so you don't swallow too quickly. You will be taking things slow for the next week so that your body properly adjusts back to your Perfect Day Lifestyle.

For days 2 and 3, continue with the above suggestions but add in steamed kale, spinach and berry smoothies made with structured water but do not overeat and make sure you chew all your food until it is a liquid and eat in a calm, peaceful state.

Finally, you made it! On day 4, you can begin the Perfect Day protocol, it's time to incorporate solid food into your diet again including healthy fats, lightly cooked vegetables, small amounts of clean plant protein and your supplements. Remember to still take things slow as you incorporate more foods back into your diet.

Be aware of how you feel, keep checking in with yourself, your digestion, and know that people just eat too much food. Most people are eating themselves to an early grave. Do not become a piggy bank for the system.

While this program seems pretty straightforward, understand that this is a time of discipline and patience. It can be very tempting to break an extended fast too fast with a meal full of your favorite foods. Do not feed this temptation, starve it, your body will thank you tenfold! Retrain the brain and stay off the pain train.

HOW DO I BREAK A DOCOFDETOX ADVANCED WATER FAST?

During an extended fast, the body's assembly line, otherwise, your digestive tract will go into rest and repair mode. Coming out of your Advanced Water Fast should be done with gentle baby steps so that you don't cause shock or trauma to your system. A basic rule to go by is whatever length of time you are on a fast, take half of that time to come out of it before starting the Perfect Day protocol.

EXAMPLE:

If your fast lasts for 6 days, you would take 3 days to come out of it before starting the Perfect Day Protocol.

2 MONTH BREAK

You should always take about 30 to 60 days off in between your extended water fast and go back on the Perfect Day Protocol because your body is still going to be healing for 6 months after a 9-day or longer Advanced Water Fast. A 9-day or longer advanced water fast can have the same therapeutic effect on your body as a \$100,000 stem cell transplant. After your water fast you need to implement permanent Lifestyle Changes. Say hello to the new you, never go back to the old you.

If you wish for a new reality you will need to change parts of your personality to discover the authentic you. It's great to do a 24-hour fast every week.

FREQUENTLY ASKED QUESTIONS

CAN I EXERCISE WHILE INTERMITTENT FASTING?

Yes, you can absolutely exercise while intermittent fasting. If you are not consistent with exercising and are new to intermittent fasting, it is better to focus on only light movement at the beginning and maybe throughout. Light Core Twisting and Rebounding for 2-5 minutes at a time 2 to 3 times a day, Foam Rolling and Stretching are ideal, you can also go for a few nature walks if the weather permits. Please look into getting Wolfe Deep Tissue to untie the invisible bonds that bind you and Wolfe Non-Surgical for your core. Also if you are chronically ill or unable to work out or you understand the healing power of microcirculation go to The Library and click on EMF/LIGHT and read up on Avacen the world's leading technology in microcirculation which is a class two medical device.

If you are fit and healthy and exercise regularly then doing a workout while on a fast is a powerful and healthy way to stimulate the nervous system, and increases your level of autophagy and muscle-building potential, especially if you do resistance training or burst training at the peak of your 17-hour intermittent fast, which would be a morning workout. This is also the perfect way to set the pace for your day, giving you sustainable energy and mental clarity for productivity.

CAN I EXERCISE WHILE ON AN EXTENDED WATER FAST?

Yes, you can exercise while doing an extended fast. When doing an extended fast, it is better to focus on light movement and Stretching, you can also go for a few nature walks if weather permits. If you own or have access to an Avacen then use it often during this time. Check store. docofdetox.com for more information.

Your goal is to get moving to improve your circulation, reduce inflammation, and to help release dopamine and endorphins, which make you feel happy. Burning calories is not your goal while on a fast since you aren't eating any food, you need to stimulate these feelgood neurotransmitters with light exercise, Avacen, Biopton Light Therapy, Sun Gazing or using a Vitamin D light, practicing your breathing techniques and doing your external therapies found in the Perfect Day Guide.

CAN I DO AN EXTENDED WATER FAST IF I AM ON ANY MEDICATION?

If you are on medication, consult with your healthcare practitioner who prescribed you the medication before starting an extended fast. With most medications, fasting is not an issue but it can be a problem with steroids, blood thinners or certain prescriptions for diabetes. If you are on prescription drugs, it is advisable to be medically supervised if you are looking to the Doc of Detox advanced extended water fast.

If you stop taking your prescribed medications for your extended water fast, we advise that you are monitored by the physician who prescribed you the medication.

HOW LONG CAN I SAFELY DO A WATER FAST?

When fasting you have to take the physical and emotional state of each individual person into consideration. Fasting is not dangerous, it just needs to be respected. Many people have fasted for more than 40 days without issues, but as we always say, taking gentle baby steps is how you build a successful program. Please consult with your healthcare provider or your Doc of Detox certified Fasting Coach for the best fasting program for you.

WHAT IF I FEEL A STRONG SENSE OF HUNGER?

It is normal and natural to have what we call “hunger pangs” during a fast. Hunger pangs are triggered when you normally eat or if you are not following your fasting protocol. The hunger hormone ghrelin is secreted when the stomach is empty and when we are used to eating. Drink 10-16 oz of structured water with Fulvic Acid at these times to suppress and reset ghrelin levels and to eliminate hunger. Don't forget to practice your Perfect Day Breathing Techniques to reset the brain. It's all about programming, don't let a program ruin your fast, change it.

WHEN DO I KNOW IT IS TIME TO BREAK A WATER FAST?

If your symptoms increase, persist, and do not subside with the Structured Water, Fulvic Acid Concentrate, SAC Ionic Calcium, Beyond Ormus minerals, pink Himalayan salt, IGF-1, Perfect Day breathing techniques, Avacen (see docofdetox.com) and rest then it is time to end the fast and just know that you have done a great job. Some people will push themselves through and the symptoms will go away over the next day, which is great but use logic. However, if you are doing an unsupervised fast and you feel awful even after applying the strategies in this guide then we recommend ending the fast and calling the Doc of Detox or your healthcare provider. There is nothing wrong with ending your fast early if you are not at ease or unsure. Love yourself, you're worth it. Brave Heart.

SELF LOVING STEPS:

Lovingly repeat every step, each day, during the **33 Day Awakening Transformation** to **unleash the authentic you**. Remember, when waking and just before sleep are the most important times for installing new belief systems.

“I believe in you. I need you to believe in you too. 3, 2, 1, You’ve got this!”

SELF LOVING STEP 1: THE GRATITUDE ATTITUDE

Before opening your eyes, state 3 things you are grateful for while performing **Lion Heart Breathing**.

SELF LOVING STEP 2: OFF THE HOOK

Practice totally forgiving and sending **love** to 3 people, systems, corporations or things in your life that you don’t like (ex. chemtrails, taxes, etc.). You might want to totally forgive and send **love** to yourself – remember, you must come first and foremost. Let yourself off the hook for things you cannot fix and are probably none of your business. Let yourself off the hook for things you think you could have done or should have done; the more contaminated the beliefs, the more guilt you feel and the deeper and more painful the hook becomes. “Off the Hook” is about eliminating Self-Hate and perfecting the art of forgiveness and **unconditional love**.

- 1.** Total Self-Forgiveness
- 2.** Total Forgiveness Of Others
- 3.** Compassion & Gratitude
- 4.** Unconditional Love

SELF LOVING STEP 3: VISUALIZE, AFFIRM, CREATE, ALLOW

Spend 5 minutes at the beginning of your day to visualize and affirm how you want to create your day. Create **The Perfect Day** each and every day for The Perfect Life!

“Image Creates Thought”

— Dr. Darrell Wolfe —

SELF LOVING STEP 4: SNAP BACK TO THE PRESENT

Lovingly Snap Back into alignment with yourself and the present moment with the **Love Band/Life Band**. Gently snap your band 12 times per hour to release your inner power. For lightning-speed life-changing results, use alarms (on your phone) to ensure you incorporate **Love Band/Life Band** into your day. People always run programs; choose programs that are based in **Self-Love** and joy! Snap back to **Total Self-Love!**

♥ ***“I love and approve of myself.”***

♥ ***“I’m amazing!”***

♥ ***“I can do this!”***

♥ ***“I’m beautiful!”***

“Thought Creates Emotion”

“Emotion Stands For Energy In Motion”

SELF LOVING STEP 5A: MIRROR, MIRROR ON THE WALL

Start every day with **Mirror Work**. Connect to your heart, look deep into your eyes and repeat The **BraveHeartNation Oath** 10 times. Write the **BraveHeartNation Oath** on a sticky note and put it on your mirror, just below center (where your nose is), so it is easy to read and easy to memorize.

“I am Love. I am Healed. I am BraveHeart. Today and everyday, from the moment I rise until I gently close my eyes, I will trust, honor, respect, protect, forgive and totally love myself, first and foremost, before anyone else or anything else, so help me God. Because I am, I can. I am Healed. I am BraveHeart.”

SELF LOVING STEP 5B: DRIVING IT HOME

Perform **Mirror Work** whenever you get in and out of your vehicle. While engaging in **Lion Heart Breathing**, look into your eyes and state affirmations that bring you joy and happiness.

- ♥ **“I love you [Your Name].”**
- ♥ **“You’re amazing!”**
- ♥ **“Life is amazing!”**
- ♥ **I can do this. I got this!”**

SELF LOVING STEP 5C: LOVE ON THE FLY

Perform **Mirror Work** during every bathroom visit. While engaging in **Lion Heart Breathing**, look into your eyes and state affirmations that bring you joy and happiness.

- ♥ **“Hey beautiful!”**
- ♥ **You’re amazing”**
- ♥ **“I got this!”**
- ♥ **“I love and approve of myself.”**

Go back into the bathroom if you forget to do your **Mirror Work**. This is not a punishment – this is a mission of **love**.

SELF LOVING STEP 6: BEDTIME MIRROR WORK

Before bed, perform bathroom **mirror work**. "Thank you, **God, Creator, Source** or [_____] for such a beautiful day, I **love** you so much!" Repeat this affirmation 10 times out loud with passion and intention from the heart, while looking deep into your eyes.

SELF LOVING STEP 7: BEDTIME GRATITUDE

Before sleep, list 3 things you're grateful for from that day while practicing **Lion Heart Breathing**. Gratitude is Altitude – Rise to your Greatness!

- ♥ "I am grateful for my breath."
- ♥ "I am grateful for being the hero of my day and the light for my family."
- ♥ "I am grateful for being the change that I seek."

SELF LOVING STEP 8: CALENDAR TRACKING

Track and chart the pain body programs run by you and those you are close to. You will realize we are robots programmed for pain. When you become a loving observer, you will dismantle these programs and change your life.

SELF LOVING STEP 9: COUPLES CONNECTION

Open yourself up to the presence of total **love** between you and your partner with the Couple's Connection, or you and yourself with the **Self-Love Connection**, and bring your **love** to the highest possible level.

SELF LOVING STEP 10: FAMILY CONNECTION COLLAGE

Introduce your family to the art of creative visualization by inviting them to join you on your new journey by building a vision board or collage. Teamwork makes the dream work!

SELF LOVING STEP 11: RECALL HEALING

Recall Healing and Mind Mapping unlock the hidden secrets of illness and dis-ease by identifying the underlying emotional conflicts and traumas that create negative conditions or behaviors.

SELF LOVING STEP 12: MIND MAPPING

With Mind Mapping, rewrite your life's story and create a new, true to you, reality map. You're not your story until you make it yours.

WHOLE LIFE COACH

THE GAME CHANGER IN HEALTHCARE TODAY.

This 9 day intensive professional course will change you from the inside out, and the outside in. You can not give what you are not. This course was created for those who wish to become health practitioners, or who feel stuck in the Medical HealthCare or Natural HealthCare System and want to bring their potential to the highest level both personally and professionally.

Just know this, this course attracts a broad spectrum of health professionals such as nurses, chiropractors, physiotherapists, acupuncturists, medical doctors, psychiatrists, psychologists and all forms of naturopathic doctors. I know these seem like big statements, but you can see testimonials from all these professionals validating this fact.

How would it feel to empower your patients and clients to create the Perfect Day on an emotional, nutritional and physical level from the moment they rise until they gently close their eyes?

And yes, you'll treat patients but the ultimate goal is to train and empower them to become their own practitioner for themselves and their family. Until the practitioner focuses on training, that practitioner is mis-treating. We must work from the point of view of the Power of Love, not the love of power. This is the way that we can touch and heal the hearts of many.

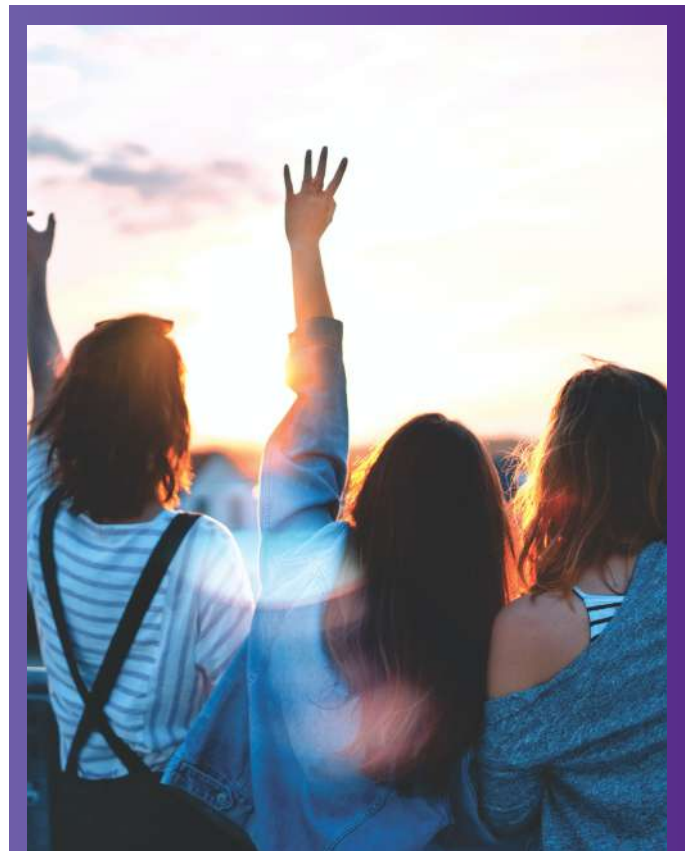

ABOUT THE WHOLE LIFE COACH CERTIFICATION

This course is recognized by the World Organization of Natural Medicine (WONM) and is designed to give you the most advanced tools, strategies and techniques in nutrition, emotional therapy, and physical wellness.

*“Feed Your Spirit,
Heal Your Body”*

— Dr. Darrell Wolfe —

This course was created to bring health professionals to their highest level. However, we do have a lot of lay people from the general populace who want the best training possible for themselves because most say they can not go on living like this. This is why we get 20-30% of attendees from the general population who do not wish to do this professionally. They attend this course because they want the best and want to go deep so as to become the tipping point of change for themselves and their family. By the end of the Whole Life Coach course they feel they are back on course, or have even (re)discovered their passion and purpose in life and go on to become practitioners.

WHOLE LIFE COACH

IS THIS COURSE RIGHT FOR ME?

For almost 4 decades, Dr Darrell Wolfe devoted his life to creating life-changing therapies and trainings, strategies and tools for existing practitioners, those who wish to become practitioners, and those who wish to bring their health to the highest level.

Dr. Darrell Wolfe ran the first Whole Life Coach Course when he was 27 years old. Forty years later, he now teaches it and 3 other courses worldwide.

Doctors, chiropractors, nurses, physiotherapists, psychologists, psychiatrists, acupuncturists, and massage therapists have all taken this course. Most say that they get more out of these nine days than they got in their whole schooling. It's not that they are given more information. Rather they are taught what they really need to know, not what they don't need to know. They learn to not just treat their patients, but to start training them by using logic, truth and knowledge based on true wisdom – the most powerful tools needed to help others heal. They learn that Natural Health has been diluted and twisted. In fact some of the practices they have been taught can actually cause harm and do not treat the real issues in the tissues. The sad truth is that any school or course that has been government approved is not necessarily taught in the best interest of the people but in the best interest of the few that feed off of the many.

With all the medical breakthroughs, experts, and natural health professionals, why do we find ourselves sick, fat and exhausted?! Everything is a program. We need a new one. It's called the Whole Life Coach Course. This course is based on logic and critical thinking.

So if you always wanted to become a practitioner, then this is the course for you. If you already are a healthcare worker, this course is for you. Similarly, If you were displaced due to your beliefs, take this as a sign of the new type of HealthCare. Welcome to the New World Practitioner (NWP).

Participants learn to become emotionally balanced, nutritionally balanced and physically balanced because it all begins and ends with you. You can not give what you are not. You can only give what you are.

In this course you will uncover and discover the genius within... the true healer. This is an intense training on an emotional, nutritional, physical, psychological and functional level. In just nine days you will unlearn what has been taught to relearn what really works.

Why is it that no matter how bad or how poor the results are for their patients, practitioners keep repeating the same therapy over and over again?! Why? Because they actually believe "this is as good as it gets". There's nothing wrong with the practitioner, it's the program. Or how about this, just because the majority of so-called healthcare systems are repeating the same thing with the same results, it doesn't make it right. And what if the minority of healthcare systems were doing something different yet achieving what people would call impossible results? Are you open enough to have a new way of thinking? You can't fix a system, you can only change it. When is it a good time to think outside the box? Now is the time for us to unlearn and rethink healthcare.

WOLFE NON SURGICAL

WHERE OTHER THERAPIES END,
WOLFE NON-SURGICAL BEGINS

Become a world leading bodywork therapist with the most powerful bodywork technique in the last 40 years. This proven technique — Wolfe Non-Surgical — reverses the so-called irreversible.

The Wolfe Non-Surgical certification course is 12 days and requires 100 hours of training and treating.

This specialized elbow therapy technique allows you to pull muscle fibres apart which ultimately restores the flow of blood, lymph and life force to tendons, ligaments, muscles, joints and organs. Wolfe Non-Surgical does not break up anything nor remove anything. It brings back the breath of life, reversing the issues in all body tissues by restructuring adipose tissue, adhesions, lesions, fibroids, tumors, calcifications and scar tissue from surgery.

BraveHeartNation.com

WHY WOLFE NON-SURGICAL?

Wolfe Non-Surgical is needed now more than ever as the world seems to be aging faster. There are more prescription drugs, canes, walkers, wheelchairs, implants and scheduled surgeries than ever before. Old age is a scar tissue issue that is mainly created by lifestyle choices such as diet and hydration, physical injuries, surgeries and most importantly your thoughts and belief systems.

The secret to reversing physical issues in the tissues hides within the joints. Almost all bodywork therapists do not understand the true art of bodywork. This is why people keep going back to the same therapist or spend a lifetime searching for the holy grail of healing.

These issues in the tissues lead to displaced calcium, crystallization and scar tissue causing aches, pains, drug addictions, lumps, bumps and recommendations for surgery. Which incidentally creates the most scar tissue in the body and then you need more drugs to numb out the pain from surgery.

But what if naturopaths, medical doctors, massage therapists, chiropractors, physiotherapists, acupuncturists, osteopaths and nurses who have never been taught to address this, now know how? This would be the tipping point of change when it comes to pain and inflammation which add up to a lifetime of suffering.

What if you yourself step in to becoming the therapist every body demands? Remember, symptoms are the body's way of communicating that there are issues in the tissues, and that your body is out of balance. The pain that you live with is the pain you're experiencing in your mind first and foremost. This drops your frequency indicating your weak links.

BENEFITS OF WOLFE NON SURGICAL

Wolfe Non-Surgical Therapy has been shown to be the most effective form of bodywork therapy to reverse the underlying cause of chronic and acute muscular and skeletal problems, accidental & sports injuries, muscle loss (atrophy) and internal scar tissue formation within the body caused by lifestyle choices and surgery. To back this up all our certified Wolfe Non-Surgical therapists offer a money back guarantee on the first treatment that it will outperform all other therapies combined. The most impressive result is instant pain relief, increased range of motion, mobility, flexibility, tone, strength and energy.

Eliminating scar tissue, displaced calcium and crystallization removes the physical blocks that create swelling, pain, stiffness, inflammation, and, yes, abnormal growths. Your life force will flow optimally because your circulation would be where it needs to be. In fact, you can reverse the seemingly irreversible, and treat the so-called untreatable. Eliminating the physical block eliminates the physical problem, and the symptoms that go with it. Always remember the body cannot heal with the same mind that created the disease or ailment.

While this therapy seems to produce miracles, it is in fact just common sense that becomes an everyday occurrence when you master this technique. We're not removing scar tissue, we're not removing tumors, we're not removing fibroids, we're not removing arthritis, we're not removing endometriosis, and we're not removing scars from surgery.

We're restoring life to your tissues, lovingly pulling the tissues apart to allow the breath of life to restructure them to their original state. We like to call it the domino effect of healthy healing.

Patients notice a remarkable difference in just one treatment. Dr. Sage Wolfe, Dr. Darrell Wolfe and any other New World Practitioner will successfully demonstrate how Wolfe Non-Surgical Therapy can reduce an arthritic joint's pain and size by 70-80% in half an hour, but here's something else for you to take in: We can also greatly reduce a fibroid the size of an orange by up to 30% within 30 minutes; or someone can walk-in with a cane and walk out without it. It all depends on how much the client is willing to let go.

We train you to teach your patients / clients how to address body pain as body talk (GPS), and how they can avoid becoming a victim emotionally and physically due to an outdated Belief System that 'this is as good as it gets'.

One of the best parts about the Wolfe Non-Surgical certification course is that you get a full body treatment to help resolve your aches, pains and body issues too. You'll be getting — and giving — approximately 35-40 hours of Wolfe Non-Surgical therapy from your toes to the tip of your nose. How is that for cool?

In closing, this is Dr Darrell Wolfe, and I would like to say "take a good look at the standard MedicalCare and Natural HealthCare and the professional bodyworkers who are promoted in health care today, and ask yourself if that is as good as it gets. My answer to you is, guess what, it is much better. We will teach you how to reverse the irreversible and make the impossible become I AM Possible. Come, get certified as a Wolfe Non-Surgical Therapist and unleash the power within to become the practitioner who you are meant to be.

SHOCKWAVE THERAPY SINCE 1987

We have all at some time been helped by surgery and pharmaceuticals. It may have only been a stitch to close a wound or a pill to block pain but without these long standing medical methods we may not have got to where we are now. But what if that wound had been infected and turned to gangrene and if that pain had been caused by the early stages of cancer would we have survived? Most likely we would have died. Traditional medicine struggles with wounds, cancer, psoriasis, periodontal infection and many other common, debilitating diseases.

“This Is Biophysics, Not Biochemistry.”

Cancer causes more premature deaths than any other disease. It is an electrical fault, easily detected and easily corrected. This is biophysics, not biochemistry. CellSonic VIPP that has been in production for fifteen years has been found to stop the profuse replication of mutating cells instantly without drugs or side effects.

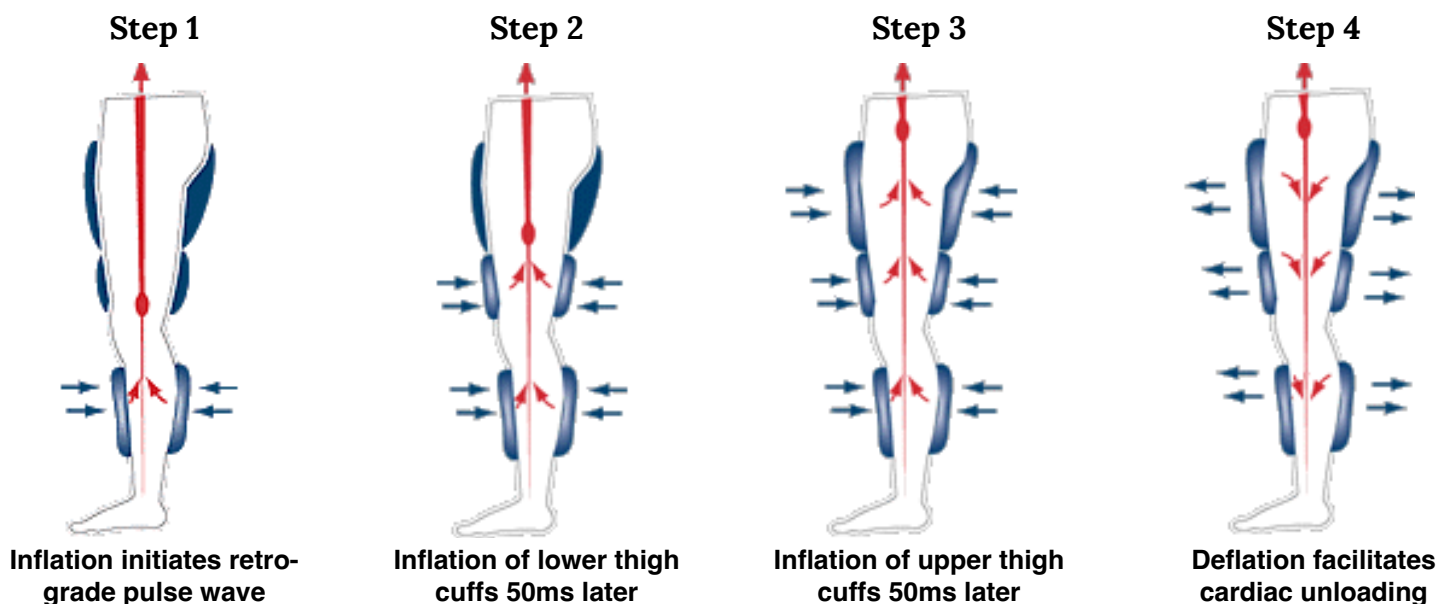

The method has now progressed to being able to stop **inflammation, even stage 4**, in a population, not just in a person. A quick check-up will find and stop a cancer before a person is aware of it. The same technology applies to most chronic diseases.

Cardio MedBed

ENHANCED EXTERNAL COUNTERPULSATION FOR COMPLETE REGENERATION OF HEART & CIRCULATORY SYSTEM

Cardio MedBed (Enhanced External Counter Pulsation) is performed as a non-invasive treatment to lower the number and intensity of angina episodes (**chest pain caused by reduced blood flow to the heart*). Treatment is administered through three pairs of external inflatable cuffs that are applied around the lower legs, upper legs and buttocks. These cuffs continuously inflate and deflate between the resting period of the heartbeat and increase blood returned to the heart.

The basic principle of **Cardio MedBed** treatment involves increasing the amount of blood returning to the heart, which helps supply more oxygen to its starved areas. With more oxygen available, the heart can function much more efficiently and therefore reduce chest pain.

- Increased oxygen supply for the heart
- Decrease in chest pain
- Improved EKG response to exercise
- Decrease in nitroglycerin use
- Increase in energy
- Increased exercise duration
- Lasting benefits

Every Purchase Of A Cardio MedBed Comes With 1 Complete New World Practitioner Certification.
