

# STRUCTURED WATER UNIT

## Nature's Most Healing Water

The Portable Unit is the easiest way to enjoy energy infused Structured Water at home and on the go. Structured Water is readily absorbable for your cells, providing you with optimal hydration and healing. The #1 Water for Health & Wellness. As water travels the earth and comes into contact with various natural bodies, such as rocks and down waterfalls, it becomes symmetrically structured in a sturdy and elaborate

geometric shape,  
reducing its surface  
tension,  
neutralizing toxins,  
increasing its hydration  
power and most  
important the  
memory held within the  
water is wiped clean.  
Water is life's primary  
element and  
has a connection to  
everything on earth, living  
or non-living. Water,  
however,  
does vary in form through  
the various bodies where  
it is found, for example:  
water  
in our body exists in a

different form from the water we drink. Through nature's design, Structured Water creates greater flow of energy as it connects with life. When Structured Water is taken into our body, it greatly enhances our body's ability to rejuvenate and take care of itself, to become healthier and functions in a more optimal manner.
