**Comprehensive Solutions** for Head and Neck Reconstruction

**TRUMATCH® CMF**  
Personalized Solutions for Midface Reconstruction

# Comprehensive Solutions for Head and Neck Reconstruction

## TRUMATCH® CMF Personalized Solutions

Personalized implants based on a virtual surgical plan may result in OR time savings and optimal reconstruction results

### Patient Specific Plate for Contouring – PSPC

Plate, contoured within 5 days, based on unique patient anatomy and clinical need

### Patient Specific Plate for Mandible – PSPM\*

The plate, milled from a titanium blank, has customizable design features and improved strength compared to MatrixMANDIBLE™ System standard plate<sup>2\*</sup>

### Titanium 3D Printed Plates

Fully customizable patient specific plates and implants, 3D printed for the most complex situations such as “double barrel” mandible reconstructions and mandible graft containment

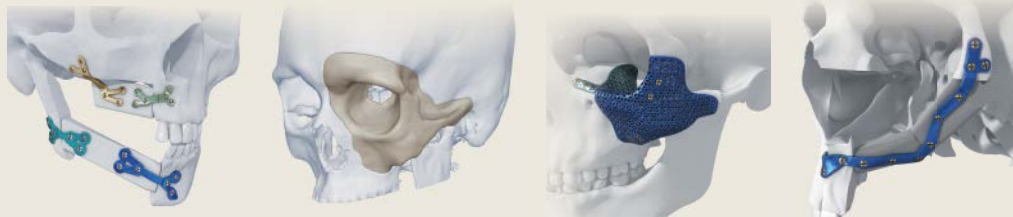

\*Patient specific plate for mandible fatigue testing shows increased fatigue life of both 2.0 and 2.5 mm profiles in comparison with MatrixMANDIBLE 2.5 mm thick plates. Bench test results may not necessarily be indicative of clinical performance.
