Sonopet iQ

Ultrasonic Aspirator System

Product catalog

Leading the way to **better surgical experiences**

Conceived from international collaboration between surgeons and built around the user experience, the Sonopet iQ takes simplicity and reliability to an even higher level, leading to consistently excellent O.R. surgical experiences. We've also added semi-autonomous functionality and unparalleled customization to empower any O.R. team, any time, day or night.

What's new?

-  Improved performance. Increased power and speed.
-  Improved ease of use. Simpler setup and intuitive console design.
-  Proprietary customization technology.
Unparalleled user customization through RFID tips and user profiles.

Unparalleled customization

One-step retrieval of surgeon profile

RFID automatic optimization

instantly changes settings based on connected tip or user profile

Take control

Choose from three foot pedals and a hand controller for remote control from sterile or non-sterile field.

Simpler setup; instant readiness

One-step non-sequential connections

Greater irrigation control

Auto prime
Increased visibility
Designed for controlled suction pinch valve
One-click cassette
Integrated into end of handpiece

One-step connections

For irrigation, suction, tubing and sleeve

Enhanced guidance

Onscreen setup and tutorials
Alignment dots and color-changing ports provide connection feedback
Large touchscreen

Handpiece refinements

Designed for power, performance and reliability

Proven in neurosurgery— flexible enough for wider use

We've engineered the Sonopet iQ Ultrasonic Aspirator to give surgeons fine control and dependable power to fragment, emulsify and aspirate soft tissue and bone. Engineered to meet the rigorous demands of complex cranial neurosurgery, spine and ENT procedures, the Sonopet iQ System is indicated for use in a wide range of applications:

- Gastrointestinal and affiliated organ surgery
- General surgery
- Gynecological surgery
- Laparoscopic surgery
- Neurosurgery
- Orthopaedic surgery
- Plastic and reconstructive surgery
- Thoracic surgery
- Thoracoscopic surgery
- Urological surgery

Neurosurgical
