

KUFRI FRYOM MINITUBER

Kufri FryoM is a medium-maturing potato variety specially bred for French fry processing. With 20% dry matter, low reducing sugars, and more than 80% processing-grade tubers, it ensures excellent fry quality with golden colour and crisp texture.

🔑 Key Features:

- ✓ Medium maturity & high yield potential (35-40 t/ha)
- ✓ Oblong tubers with shallow eyes – ideal for French fries
- ✓ Low reducing sugar (50-90 mg/100g FW) → No blackening on frying
- ✓ Field resistant to Late Blight and PVY
