LET'S GET VACCINATED

Why is it necessary?

International travel exposes you to unfamiliar climates, food, and public health risks. Vaccination minimizes the chance of contracting preventable diseases, ensuring a smooth and healthy trip.

Who can have it?

Adults and children above 1 year

Tourists, students, and business travelers

Pilgrims and individuals visiting endemic regions

Where can you get it?

Visit our Vaccination Clinic in Borivali, Mumbai. Our expert team ensures hassle-free vaccination and guidance.

We do provide home vaccination too

When should you take these vaccines?

At least 1 month before travel to ensure full immunity.

Certificate?

We provide a standardized vaccination certificate for your records, mandatory for international travel in certain countries.

How does it protect you?

Strengthens immunity against serious diseases

Reduces health risks abroad

Ensures compliance with country-specific health regulations

Side effects?

Mild: Fever or slight soreness at the injection site

Rare: Serious reactions (we're here to assist if needed!)
