-

Tentative Price List for Vaccines:

Please note that the prices listed are tentative and may change based on international market fluctuations.

Each vaccine comes with its own age and situational limitations, and it is crucial to administer them according to the brand company's recommendations.

Side effects can vary from person to person, making it essential for you to share your allergy history and any past reactions to drugs or vaccines before receiving a vaccination.

Maximum Retail Price (MRP): The prices provided are the maximum retail prices as listed. These prices do not include convenience fees or charges for biomedical waste disposal.

Please ensure you review the vaccine details thoroughly and consult with a healthcare professional to understand the appropriate choices based on your health history and current needs.
