Your Guide to RF Microneedling

Reveal Smoother, Tighter, More Radiant Skin – Without Surgery

What Is RF Microneedling?

RF Microneedling combines the benefits of traditional microneedling with the power of radiofrequency energy to deeply stimulate collagen production. It's one of the most advanced non-surgical skin tightening treatments available today.

What Can RF Microneedling Help With?

- Fine lines & wrinkles
 - Acne scars & pitted skin
 - Sagging skin on the face, neck & jawline
 - Large pores
 - Stretch marks
 - Skin texture and tone
 - Mild skin laxity (non-surgical lift)
-

Areas We Commonly Treat

- Face
 - Neck & décolletage
 - Hands
 - Stretch marks (abdomen, thighs, hips)
 - Acne-prone or scarred areas
-

What Clients Say

"I noticed a difference in my skin texture just days after my first session!"
"It's like a collagen-boosting facial. I look lifted and tighter—without fillers."

TRI LUX STUDIO

Benefits of RF Microneedling

Feature	Benefit
Radiofrequency Heat	Firms and tightens skin
Microneedling	Improves texture and boosts collagen
Safe for All Skin Tones	Minimal downtime & low risk
No Surgery or Injections	Natural results without filler

What to Expect

Before Treatment:

You'll come in for a consultation to review your skin concerns and ensure RF microneedling is right for you.

During Treatment:

A numbing cream is applied. The device uses tiny needles and radiofrequency to treat your skin in sections.

After Treatment:

Mild redness and warmth for 1–2 days. Results improve over 3–6 weeks as collagen builds.

How Many Sessions Do I Need?

Most clients see visible results after **2–3 treatments**, spaced 4–6 weeks apart. Maintenance sessions may be recommended every 6–12 months.

Is It Right for You?

RF Microneedling is ideal if you're looking for:

- A non-surgical facelift alternative
- Acne scar smoothing
- Skin rejuvenation without filler
- Visible skin tightening
