The owner of any property serviced by the Schwenksville Borough Authority is obligated upon transfer or conveyance of said property to have an inspection of the lateral. Should a visual inspection warrant a more detailed pipeline inspection, the owner will be responsible to hire a pipeline televising contractor to televise the lateral under the direction and observation of the Authority's contracted Operator or Engineer. The cost and expense for the televised inspection, including the firm that performs the inspection, shall be the responsibility of the owner of the property.

New connections to the water or sewer system shall be made only under prior written agreement between a property owner and the Authority. The property owner shall be responsible for all costs, including design, review, legal and construction costs, related to the new connection, which shall, at the discretion of the Authority, be made either by the property owner's or Authority's contractor. All costs for a new connection shall be escrowed in advance of the construction. Any new connection shall be made in accordance with the Authority's standard specifications.

Professional fees for Solicitor, Engineer or Manager contracted to operate the water and sewer facilities is the hourly rate as established by the Board on an annual basis, and are available upon request and subject to change from time to time.

All Water and Sewer bills shall be rendered for monthly service. Such bills are payable within thirty (30) days of issuance. In addition to all of the remedies set forth by state law, all delinquent water and sewer bills shall be a lien upon the property served and all Attorney fees and costs accrued by the Authority in placing and or removing the lien shall be added to the amount due.
