PM Industrie is a **French** company experienced in industrial mechanics since 2004, and specialized in the manufacture of **aluminum** parts for **aqua fitness** devices (**AquaNess**), snow-scoots, handlebars for motorcycles, BMX, jet skis and quads. All of our products are manufactured from high quality marine aeronautical aluminum. **We chose the aluminum** as its unique combination of properties such as lightness, mechanical resistance and corrosion resistance; furthermore, it is a material 100% recyclable.
