

## Speakers

### Nick Newman

Nick Newman with Horizon Distributors has over 10 years of experience in the irrigation field. He will be giving a crash course in basic irrigation and help you to have a better understanding of designing irrigation for optimal tree watering.

### Eric Choker

Spent 5 1/2 years assigned to Natural Resource Conservation Service (NRCS) Soil Survey Team to update the 1968 Spokane County Soil Survey. Currently provides technical assistance to the public, commercial, and local agencies in areas of soil information and management. Conservation planner and auditor of Farmed Smart large tract agriculture and small farms using NFCS guidelines. Conducts soil testing and recommendations to urban and small acreage landowners. Responds to Burn Area Emergency Response (BAER) team duties to perform soil investigations in Washington state after wildland fires

### Garth Davis

Garth is a Certified Forester, Certified Arborist and Qualified Tree Risk Assessor with a B.S. from the University of Idaho in Forestry Ecosystem Management. Garth is the Forestry Program Manager for the Spokane Conservation District, in this capacity he helps landowners properly care for their trees and forests. Working part of his time for the Washington Urban and Community Forestry Program he assists communities start and build urban forestry programs

### Tim Kohlhauff

Tim Kohlhauff is urban horticulture coordinator for WSU Extension in Spokane, and an adjunct instructor at Spokane Community College. He has worked in the green industry since 2001, and has been a certified arborist since 2004.

### Workshops are sponsored by

### Community Canopy

a tree care partnership program of the cities of Post Falls, Hayden, Coeur d'Alene, Liberty Lake, Spokane and the Spokane County Conservation District, in cooperation with the University of Idaho Extension and the Washington State University Extension.

# Helping Trees Thrive

## Basic Irrigation systems / designing irrigation for optimal tree watering

### Designing Irrigation For Optimal Tree Watering Tree Species and Water Use Trees And Drought

**Who should attend:** These workshops are designed for anyone who supervises or performs any kind of turf or landscape maintenance activities. This includes tree services, in-house grounds maintenance crews and landscape contractors, as well as volunteers who assist with maintaining church grounds, subdivision plantings or parks or any other community landscaping.

#### What will be offered:

- Practical information from qualified speakers on the listed topics;
- Brochures and publications relating to the workshop subjects;
- Breakfast refreshments 1/2 hour before the workshop;
- Lunch will be provided for those attending both workshops.

**How to Register:** Space is limited, so sign up as soon as possible. Pre-register by filling out and returning the attached form.

**Cost:** There is a \$10 registration fee per person, per workshop. Checks are to be made out to the City of Coeur d'Alene.

**Location:** Trailhead building at Q'emlin Park, 12201 W Parkway Dr. Post Falls, ID 83854

*Friday, March 22*  
**AM SESSION 9:00am-11:15am**

## Basic Irrigation

In this session, attendees will learn the basics of irrigation systems and parts. Routine repairs and maintenance will also be covered.

## Designing Irrigation for Optimal Tree Watering

Having adequate water for trees is a must. Designing irrigation with trees in mind will help them thrive and will prevent major work as they grow. This will cover different methods, design techniques and equipment to include when designing irrigation system so that you can include zones designed for optimal tree watering.

**LUNCH 11:15-12:00**  
**PM SESSION 12:00-3:15pm**

## Water Movement Through Different Soil Types

Eric Choker with the Spokane County Conservation District will go over different soil types and how water moves through each type.

## Tree Species and Water Use

Trees of various species have different water requirements. Learn about the trees that need the most and least amount of water.

## Trees and Drought In the Inland Northwest

Our climate is dry, and drought-prone. Recent years have seen hotter temperatures with more extreme drought... remember 2015? What are the medium and long term impacts of drought on trees, and what can we do to be ready?

*Community Canopy has applied for ISA CEUs and CLT Credits for both workshops*

## Registration Form

Name \_\_\_\_\_

Business / Organization Name \_\_\_\_\_

Address \_\_\_\_\_

Phone \_\_\_\_\_ FAX \_\_\_\_\_

E-mail address \_\_\_\_\_

Others who will attend with me:  
\_\_\_\_\_  
\_\_\_\_\_  
\_\_\_\_\_

Workshop	Number attending
AM Session - March 22	<input type="text"/>
PM Session - March 22	<input type="text"/>
Number of attendees X number of workshops each X \$10 =	\$ <input type="text"/> . <input type="text"/>

#### Method of Payment

- Check Enclosed (to City of Coeur d'Alene)
- Bill My Company/Organization

If you are registering for more than one person, you may fill out one registration form with all information

#### Send registration to :
